# METRICS USED TO MEASURE COMPREHENSIVE PLAN SUCCESS

Orange County Juvenile Justice Coordinating Council Ad Hoc Committee Report, February 2021

- **Pre- and post-program participation assessment to measure program participants against themselves**
- **Improvement of protective factors** (i.e. factors that may mitigate or reduce problematic behavior)
- **Amount and influence of any training that was provided** (i.e. measure expected outcomes of training to measurable returns)

For each funded program, it will be also be important to get input from Collaborative Agencies/Partners in regard to the following:

- What is relevant to be measured and can feasibly be measured in a pre-/post-program assessment?
- What protective factors are relevant and can be measured?
- What are relevant and measurable returns?
