The Recidivism Reduction Unit (RRU) continues to make a positive impact in the lives of system-involved individuals. The mission of the RRU remains the preservation of public safety through the reduction of recidivism. Throughout the current health crisis, the unit remained operational providing legal representation and support services to clients both in and out of custody. Resource paralegals and two Recidivism Reduction Advisors (RRAs) support the attorneys in the RRU and remain an integral part of our client centered work.

During this quarter, the Public Defender's Office provided legal representation to clients on Post Release Community Supervision (PCS), Mandatory Supervision (MS), and Parole (PC) violations cases while the Orange County courts remained open. In addition, the RRU filed 97 petitions for legal relief under Prop 47 Realignment Legislation and the Prop 64 Marijuana Legalization Act. The lobbies of the Public Defender's Offices stayed open at all of our branch locations throughout the Covid-19 health crisis. In addition to providing outreach, we continued to assist walk-in clients with legal issues and resources.

In this quarter, the Public Defender's Office handled the following AB 109 matters:

PCS Cases Opened	MS Cases Opened	Parole Cases Opened	Total Court Appearances (includes PCS, MS and Parole)	Contested Hearings
572	27	83	1,049	3

### Reentry Legislation

In January of 2020, several new bills provided additional relief for clients with criminal convictions. The RRU provided legal representation for Public Defender clients that qualify for relief under these new bills. In addition to assessing the individual merits of identified cases, each piece of legislation required the development of new processes. The Public Defender's Office worked with stakeholders to develop procedures and practices that bring these cases before the Court.

Fire Camp Relief Bill (AB 2147) allows a defendant who successfully participated in the California Conservation Camp Program or a county inmate hand crew as an incarcerated individual, and has been released from custody, to petition to withdraw their plea of guilty or plea of nolo contendere and enter a plea of not guilty. With some exceptions, the bill permits the court to dismiss charges in the interest of justice. In so doing, the defendant is released from all penalties and disabilities resulting from the offense. In granting this relief, the bill requires the court to order the early termination of probation, parole, or supervised release if the court determines that the defendant has not violated any of the terms or conditions of their release during the pendency of the petition.

The RRU immediately began the task of identifying qualified clients and taking requests for relief under AB 2147. As individuals are identified, an attorney in the unit reviews the file, drafts a petition and argues the merits of the case in court. The necessity of these petitions will be ongoing as new participants continue to complete the various fire camp programs.

Assembly Bill 1950 reduced the length of probation for many classes of crimes. Current probationers became eligible for relief in January 2021 if their probation term exceeded the new maximum time limits. While all stakeholders agreed on a process for petition and review, litigation on some disputed cases has

been required. Attorneys in the RRU have filed petitions seeking relief from probation in these contested cases.

Additionally, attorneys in the RRU continue to review cases and file petitions under provisions of PC 1170.91 that allow for the resentencing of veterans who have a qualified mental health diagnosis related to their service. The identification and review of these cases requires extensive research and expertise. After filing the first of these petitions, it is clear they will result in extensive litigation.

### **Recidivism Reduction Advisors (RRAs)**

Our RRAs manage significant caseloads and work closely with individuals who might otherwise find it difficult to navigate the systems necessary to secure resources. RRAs partner with other county agencies including the Probation Department, Health Care Agency, and the Orange County Sheriff's Department to improve communication and delivery of services to these clients. The COVID-19 crisis produced significant obstacles for our AB 109 clients. The RRAs maintained communication with other stakeholders steering clients through these rapidly changing systems and identifying gaps when appropriate.

In particular, RRAs remain instrumental in securing in-patient SUD programs for incarcerated AB 109 clients. In order to be placed in a CalOptima funded treatment bed, clients must be assessed with the ASAM tool to determine the level of appropriate medical treatment. RRAs continued to conduct the ASAM for our clients in custody and work with HCA to locate appropriate treatment options. RRAs locate placement for SUD treatment beds as well as transitional housing for clients who suffer from Serious and Persistent Mental Illness (SPMI). They identify barriers and work with other agencies to resolve these issues. Housing, access to MAT treatment, SSA benefits and transportation are just a few of the issues the RRAs have worked to address during this challenging time.

In this quarter, the RRAs handled the following contacts:

Client Jail Visits	Client Program Visits	Phone Calls (to/from clients)	Program and Service Referrals	Obtaining Valid Forms of Identification
7	0	1,180	644	407

Throughout this quarter of 2021, our paralegals and support staff continue to provide the following assistance to our clients:

- Assisted our clients with obtaining valid forms of identification, including driver's licenses and birth certificates required to obtain employment, housing, and transportation.
- Helped our clients enroll in programs for family reunification services.
- Worked with our clients to obtain immigration documents to help them obtain citizenship.
- Obtained General Relief benefits, food stamps, Medi-Cal, and other forms of government assistance for our clients.

**Orange County Public Defender's Office**

Martin Schwarz, Public Defender

- Helped our clients obtain treatment, including sober living and drug and alcohol rehabilitation services.
- Assisted our clients with receiving mental health services.
- Helped our clients to receive veteran benefits and assistance.

In order to meet the mandates of new legislation and the challenges of the pandemic, the Public Defender Recidivism and Reduction Unit incorporated new practices into their core functions during this first quarter of 2021. We continue to address the needs of our AB 109 clients as well as others needing reentry support. The COVID 19 crisis presented challenges as well as opportunities to bridge systems and increase the communication between agencies. We will continue to build on these opportunities in order to reduce the barriers that prevent our clients from fully reintegrating into the community.

**Total Population Analysis**

In the first quarter of 2021, the Orange County District Attorney's (OCDA) Office handled a total of 758 petitions for a violation of AB 109 supervision. The 758 petitions were for a total of 520 different defendants. Of the 520 defendants, 431 (83%) were repeat offenders, having received at least 1 prior petition. 216 defendants (42%) had at least 5 prior petitions, and 91 (18%) had more than 10 prior petitions.

Additionally, in the first quarter of 2021, the OCDA filed 1,084 new criminal cases - 490 felony (45%), 594 misdemeanor (55%) – against a total of 907 different defendants who are currently or previously on AB 109 supervision. The surge in weapons charges seen in the second half of 2020 continued in the first quarter of 2021. Weapons charges remained the most common new felony filed against an AB 109 defendant (99 cases), followed by auto theft (90 cases). Drug sales, burglary, and felony assault remained common as well.

Overall, PRCS defendants remained the largest population of violators, and those on mandatory supervision remained most likely to commit new criminal offenses.

The following pages of this report break down the above statistics by form of supervision - mandatory supervision, PRCS, and parole.

During this quarter, HCA AB 109 screeners continued to be available on site at Probation offices to follow up with referrals, screen, and link individuals to appropriate services. Probation office lobbies remained closed to the public but were open for limited business use by staff. Outreach and screening services continued to be provided telephonically with in-person screening options available as needed. Outpatient providers remained open and continued to offer services via in-person, telehealth and telephone as needed. AB 109 clinicians collaborated with Housing and Supportive Services to increase housing linkage for AB 109 individuals with serious mental illness. This effort led to all mental health short-term housing beds being filled and some individuals being linked to shelter beds. Additionally, Prop. 47 System Navigators coordinated with Correctional Health Services to have a consistent referral list. Additionally, Phoenix House began providing non-medical withdrawal management services in March. Also, this quarter, Clean Path, a recovery residence provider, added housing options for women and children. As of March 13, 2021, HCA began triaging all residential treatment referrals through the new Assessment for Residential Treatment (ART) Team. The ART Team conducts the ASAM assessments to determine eligibility, coordinates for linkage, and provides interim services if a residential treatment bed is not available.

During this quarter, four new programs opened at the Be Well Orange Campus. The County's first recovery station opened in late January. A crisis stabilization unit (CSU) program opened in early February. This CSU is the first of its kind in Orange County that serves adolescents ages 13 and up. In March, a co-occurring residential treatment program and a clinically managed withdrawal management program also opened. Two more programs, crisis residential and residential treatment, are expected to open next quarter.

During this quarter, there were 362 referrals received from probation. Of those assessed by AB 109 screeners, 327 service referrals were made and of those service referrals 164 (50%) resulted in admission. Of the service referrals made, 25% were for residential SUD treatment, 35% for outpatient SUD treatment, 15% for detox, 6% for recovery residences and mental health short-term housing, 8% for mental health

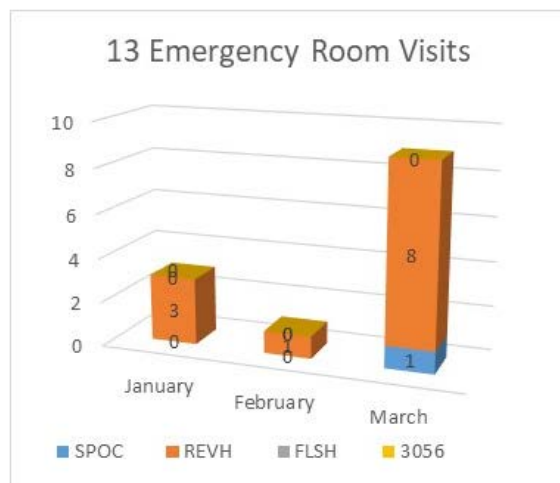

outpatient and bridge medication, 2% for FSP and 9% for medication-assisted treatment and methadone maintenance.

### Correctional Health Services

#### **Vivitrol Administration, Emergency Room, and Hospitalizations**

Correctional Health Services' staff administered zero (0) Vivitrol in the first quarter of 2021. A total of fourteen (14) AB 109 inmates were either hospitalized or treated in the Emergency Department. This is an increase from the previous quarter reflecting eleven (11) inmates.

### **Specialty Clinics**

All primary care physician services are provided within the jail; however, when an AB 109 inmate needs specialty services, they are transported to specialty medical clinics off-site (such as, Cardiology, Nephrology, Oncology, OB, Surgery, etc.). There are currently nearly 26 specialty clinic services available with 28 clinic visits completed during the 1st quarter of 2021 for AB 109 inmates specifically. This equates to approximately 5% of the total specialty clinic services for this quarter.

In-custody Correctional Health Services triages and screens every AB 109 inmate in the jail to determine their medical and mental health needs and subsequent treatment and medication plan. The volume of patients is reflected in the Sheriff's section of this report, as all in-custody inmates on the Sheriff's census are also managed by in-custody healthcare staff.

Since the inception of AB 109 through March 31, 2021, OC Probation has supervised 10,123 former state prisoners.

As of March 31, 2021, 1050 individuals were on PCS active supervision.

\* In response to the COVID-19 pandemic, the California Governor declared a State of Emergency in March 2020. The State also closed courts, altered the timing of prison releases to Counties and enacted measures, such as zero bail, to reduce jail populations. These actions affected PCS releases, MS convictions, Warrants, Revocations, and Flash Incarcerations.
