## SECTION 1: QUARTERLY GRANT STATUS

### 1.1 Expenditure Status

Please report the status of your grant expenditure as of the end of the reporting period.

a. Award Amount	\$
b. Actual Amount Invoiced-	\$
c. Percent of Award Invoiced to Date (Amount above ÷ Award Amount)	%

Please provide an update on your efforts in administering your project during the reporting period.

## 1.2 Status of Grant Agreement Goals & Objectives

<b>GOAL 1</b>	Reduce the number of at-risk youths who progress further in the juvenile system.
Objective 1a.	Informal consultations among-onsite operations staff for purposes of making more informed decisions.
Objective 1b.	Timely pre-screen assessments.
1. Describe progress towards the stated goal and objectives during the reporting period.	We had a total of 10 DCI cases in the 21-22 fiscal year. Nine out of the ten cases we had successfully completed diversion, thereby avoiding those cases being sent to the district attorney's office for filing consideration.
2. Describe any challenges towards the stated goal and objectives during the reporting period.	The number of cases that we receive that are eligible for DCI is very low. These cases are sent to us, so there is not really any action we can take to increase the numbers on our end.
3. If applicable, what steps were implemented to address challenges?	

<b>GOAL 2</b>	
Objective 2a.	
1. Describe progress towards the stated goal and objectives during the reporting period.	
2. Describe any challenges towards the stated goal and objectives during the reporting period.	
3. If applicable, what steps were implemented to address challenges?	

<b>GOAL 3</b>
Objective 3a.
1. Describe progress towards the stated goal and objectives during the reporting period.
2. Describe any challenges towards the stated goal and objectives during the reporting period.
3. If applicable, what steps were implemented to address challenges?

--	--	--

**5. Program timeline:**

On-going, continuous basis

**6. Metrics used to measure comprehensive plan success:**

<b>Pre- and post-program participation assessment:</b>
Success is measured through connection with resources, and/or successful completion of a diversion program.
<b>Improvement of protective factors (i.e. factors that may mitigate or reduce problematic behavior):</b>
Early intervention and diversion to reduce exposure to the juvenile justice system. A full time, dedicated HCA Clinician has provided integral resources, specific to the student’s needs and/or familial situation (Prevention/Intervention Programs, Outpatient Programs, Intensive Outpatient Programs, Crisis Programs, Inpatient residential or housing programs) . This position can directly and positively impact a student in crisis and help them avoid further law enforcement intervention or interaction. A Vertical DA handles cases individually tailored towards the needs of the juvenile and his/her family.
<b>Amount and influence of any training that was provided (i.e. measure expected outcomes of training to measurable returns):</b>
A forty (40) hour School Resource Officer Summit was hosted by the Orange County Sheriff’s Department and provided training for approximately 13 Orange County law enforcement agencies’ SROs. Topics presented include but are not limited to: Behavioral indicators of targeted violence, threat assessment, school site assessment, cyber safety, recognizing violent ideology/extremism, signs of radicalization, tactical communications/active listening, availability/utilization of behavioral health resources, and de-escalation techniques. Team members also attended the National School Safety Conference (40 hrs.), Targeted Violence Prevention course (8 hrs.), and a Crisis Intervention for Youth course (8 hrs.).

5. Program timeline:

On-going/continuous

6. Metrics used to measure comprehensive plan success

<b>Pre- and post-program participation assessment:</b>
Success is measured by linkages to behavioral health services and supports. This data is collected by the clinician during follow-up calls at three and six months following the initial referral/assessment.
<b>Improvement of protective factors (i.e. factors that may mitigate or reduce problematic behavior):</b>

Referrals to resources are specific to the student's needs and/or familial situation. The more often the clinician can provide services in-person the stronger engagement the youth and their families are likely to have in the process of linking to services.

**Amount and influence of any training that was provided** (i.e. measure expected outcomes of training to measurable returns):

No specific training has been provided by the clinician, though he regularly offers feedback related to behavioral health considerations to the rest of the SMART team when cases are discussed.

NOTES:

The Behavioral Health Clinician is an in-kind service provided by HCA with no JJCPA funding. A full-time clinician became available to SMART in October 2021. Linkages are usually confirmed via phone calls, which is a contributing factor as to why the number is low; it is often difficult to reach families. To address this, the clinician informs the families at the time of the brief assessment or in follow up conversations about his follow up call in 3 months, to encourage this continued engagement. Furthermore, the clinician also attempts to follow up with families face to face, especially in cases where the young person has greater needs to be linked to services. While it is likely that more families are making linkages, HCA will continue to look for ways for confirming linkages with these families.
