**FUNDING REQUEST FORM**

Please complete and submit your completed requests to Dat Thomas of the County Executive Office at [dat.thomas@ocgov.com](mailto:dat.thomas@ocgov.com).

<b>Project Title:</b>	<b>H.I.R.E. Resource Fair</b>		
<b>Total Funding Requested:</b>	<b>\$10,000</b>	<b>Fiscal Year(s) Covered:</b>	<b>2021</b>

**Provide a detailed description of the project requested to be funded.**

The Hub for Integration, Reentry & Employment (H.I.R.E.) is a fiscally sponsored project of Charitable Ventures, a 501(c)(3) nonprofit organization. Charitable Ventures was founded in 2007 with the mission to support and empower community leaders through capacity building, sponsorship, and incubation. H.I.R.E. was founded in 2020 in response to the need for integrated services for people being released back to the Orange County Community.

H.I.R.E.'s mission is to maximize the skills and talents of justice-involved youth and adults. We envision a unified Orange County where gaps in social, political, and economic opportunities are eliminated for justice-involved youth and adults. To realize the promise of our mission, we are committed to the following principles: 1. Unify Orange County stakeholders and community members; 2. Use research-informed, and data-driven strategies grounded in equity and justice; 3. Lift the voices of the community.

H.I.R.E. is collaborating with the City of Anaheim's City Council and a number of community organizations to provide a community-wide reentry job and resource fair in mid-September. In previous years, this event was held at the Honda Center in Anaheim and was a huge success. We had over 60 vendors and 300 returning citizens in attendance and additionally have received support from the CCP (as OCREP) to help fund the event.

Please direct all questions to Dat Thomas, CEO Budget Office.

## ITEM #3.A

The event will be held in a centralized location (Anaheim) with public transportation access making it easier for attendees to access and attend. In addition, it is an "adult-only" event geared towards returning citizens and their immediate families so that people who may have restrictions to being around children are not in violation.

Funding from the CCP would assist with the planning, coordination, logistics and direct costs for the event (e.g., staffing, tables/chairs, decorations, flyers/marketing, bus passes for attendees, etc.).

Coverage of a past resource fair [here](#).

### **Explain how the project supports the OCCCP's Vision and Mission.**

The resource fair meets the OCCCP's vision by connecting returning citizens with the jobs, services, transportation, and legal assistance needed to help reintegrate safely (and successfully) into our communities. In the past, this event has been a county-wide collaboration among community-based providers, employers, educators, and county and government agencies who come together to link clients with services, network with one another and create an overall more unified and safer community.

The CCP's mission to enhance public safety by holding offenders accountable and reducing recidivism through fiscally responsible, quantifiable, evidence-based, and promising practices that support victims and community restoration is met through the unifying of service providers and creating linkages for returning citizens to services and resources in the community that will aid in their successful reentry.

While quantifying actual recidivism reduction due to the event itself is not easily done, research indicates that being linked with identification and important documents, transportation, food, clothing and amenities, childcare and support, legal assistance, federal assistance benefits, bank accounts, technology assistance, employment, housing, and sober living residences can have a profound effect on one's ability to successfully reintegrate. Resource fair attendees will have access to all of these types of services at the event and are able to directly connect with and speak to the organizations and agencies equipped to help them succeed.

### **Explain how the project supports the Community Corrections System of Care.**

The Integrated Services Strategy focuses on a collaborative success strategy for the county's highest utilizers of the corrections system. The resource fair is first and foremost, a collaboration of all community stakeholders for the successful reintegration of local offenders. Any adult who has criminal justice involvement is able to attend the event and get connected with the services they may need.

The Integrated Strategy devotes attention to addressing the underlying issues that the high utilizers have – which include things like employment, mental health, sobriety, housing, and transportation. Attendees will have access to these services in one place making it easier for them to link with the services, ask questions and find out more about them – effectively matching the "no wrong door" approach the strategy seeks to address under the Pillar 4/Reentry. With numerous service providers of all types in attendance, attendees are able to access the organization or service that best suits their individual situation.

In 2021, the Recidivism Reduction Unit continues to have a positive impact on our community. As we recover from the health crisis and respond to numerous legislative changes, our clients' needs remain at the forefront of the public defender agenda.

Every day the Recidivism Reduction Unit (RRU) staff are reaching out and connecting our clients and linking them to services. These services will best support our clients by providing them the appropriate resources for their needs. The Re-Entry Unit continues to further the goal of reducing recidivism and making the community safer.

In this quarter of 2021, the Public Defender's Office has continued to staff the Realignment client population with three regularly assigned attorneys, two resource service paralegals, an attorney clerk, and a staff specialist. In addition, non-dedicated staff assist with investigation, clerical needs, and any additional Writs & Appeals issues on behalf of Realignment clients.

With respect to AB 109 specifically, the overall number of Post-release Community Supervision (PCS), Mandatory Supervision (MS), and parole cases remained steady. We continue to have a significant increase in referrals and community partners.

For this quarter of 2021, the Public Defender's Office handled the following AB 109 matters:

PCS Cases Opened	MS Cases Opened	Parole Cases Opened	Total Court Appearances (includes PCS, MS and Parole)	Contested Hearings
653	99	82	1,406	5

In addition to our legal work, the Public Defender's Office continues to assist in the reduction of recidivism by working directly with clients to reduce their risk factors and increase stability in their lives. To this end, our two dedicated resource paralegals work closely with clients, helping them acclimate in society after release from custody. As mentioned above, our two Recidivism Reduction Advisors will be a critical component in assisting our AB 109 clients. They will work with our paralegals and continue to collaborate with OC Probation, the Division of Adult Parole Operations (DAPO) of the California Department of Corrections and Rehabilitation (CDCR), Sheriff's Department (OCSD), and Health Care Agency (HCA).

Client Contacts	Program and service referrals	Obtaining Valid Forms of Identification
747	110	358

On a weekly basis, our paralegals visit the day reporting centers run by OC Probation and DAPO. In addition, they work with the OCSD on the re-entry program to further assist clients in connecting with services.

Again this quarter, our resource paralegals continue to assist our clients with necessary resources and programs.

Throughout the second quarter of 2021, our paralegals and support staff provided the following assistance to our clients:

- Assisted our clients with obtaining valid forms of identification, including driver's licenses and birth certificates required to obtain employment, housing, and transportation.
- Helped our clients enroll in programs for family reunification services.
- Worked with our clients to obtain immigration documents to help them obtain citizenship.
- Obtained General Relief benefits, food stamps, Medi-Cal, and other forms of government assistance for our clients.
- Helped our clients obtain treatment, including sober living and drug and alcohol rehabilitation services.
- Assisted our clients with receiving mental health services.
- Helped our clients to receive veteran benefits and assistance.

### **Legislative Relief**

As discussed in the previous report, Fire Camp Relief Bill (AB 2147), allows a defendant who successfully participated in the California Conservation Camp Program or a county inmate hand crew as an incarcerated individual, and has been released from custody, to petition to withdraw their plea of guilty or plea of nolo contendere and enter a plea of not guilty. With some exceptions, the bill permits the court to dismiss charges in the interest of justice. The defendant is released from all penalties and disabilities resulting from the offense. In granting this relief, the bill requires the court to order the early termination of probation, parole, or supervised release if the court determines that the defendant has not violated any of the terms or conditions of their release during the pendency of the petition. We continue to review requests for relief under this statute and have filed a number of petitions advocating for the release of penalties for qualifying participants.

Assembly Bill 1950 reduced the length of probation for many classes of crimes. Current probationers became eligible for relief in January 2021 if their probation term exceeded the new maximum time limits. While all stakeholders agreed on a process for petition and review, litigation on some disputed cases has been required. Attorneys in the RRU have filed petitions seeking relief from probation in these contested cases.

On January 1, 2021, SB 384 replaced California's existing statutes requiring universal lifetime registration for individuals convicted of various sexual offenses. The bill outlines a new tier-based registration system. Under this revised legislative scheme, offenses are broken into tiers requiring 10 years (tier one), 20 years (tier two), and lifetime (tier three) registration periods. Juveniles convicted of a sex offense are required to register as a sex offender for a minimum of either five or ten years. The law allows current registrants to petition the court for relief under the statute if they have completed the proscribed term. It is estimated there are 3,500 sex offender registrants in Orange County. The Public Defender's Office has received numerous requests to file petitions. The RRU evaluating each one of these cases for potential relief. Petitions are being prepared and litigated for each eligible client.

**Orange County Public Defender's Office**  
Martin Schwarz, Public Defender

ITEM #4

---

With assistance from our lawyers, paralegals, and support staff, our clients have been able to make strides towards creating stability and reducing recidivism. The Public Defender's Office continues to collaborate with our system partners to obtain positive outcomes including obtaining employment, locating housing, and receiving treatment for substance use disorders and mental health diagnosis.

**Total Population Analysis**

In the second quarter of 2021, the Orange County District Attorney’s Office (OCDA) handled a total of 926 petitions for a violation of AB 109 supervision. The 926 petitions were for a total of 586 different defendants. Of the 586 defendants, 475 (81%) were repeat offenders, having received at least 1 prior petition. 254 (43%) had at least 5 prior petitions, and 85 (15%) had more than 10 prior petitions.

Additionally, in the second quarter of 2021, the OCDA filed 1,187 new criminal cases—524 felony (44%) and 663 misdemeanors (56%)—against a total of 950 defendants who are currently or previously on AB 109 supervision. Narcotic charges were the most common new felony filed against an AB 109 (96 cases), followed by weapons charges (69 cases). Auto theft, burglary and fraud charges remained common as well.

Overall, PRCS defendants remained the largest population of violators, and those on mandatory supervision remained most likely to commit new offenses.

The following pages of this report break down the above statistics by form of supervision: mandatory supervision, PRCS, and parole.

**Behavioral Health Services**

HCA continues to partner with Probation by providing behavioral health assessments, referrals and linkages and treatment services. HCA AB 109 screeners continues to be available on site at Probation offices to coordinate services, follow up with referrals, and screen and link individuals to appropriate services. During this quarter, outreach and screening services by AB screeners were provided telephonically and as needed in-person following safety guidelines. Outpatient treatment providers continued to offer services via in-person, telehealth and telephone as needed. Two additional programs opened at the Be Well Orange Campus. In mid-April, the crisis residential program opened and began taking referrals. The Substance Use Treatment Services (SUTS) Residential Program serving those that need ASAM 3.1 level of care opened on 5/10/21. In June, the County’s first recovery station at the Be Well Orange Campus expanded their referral source to include county-operated programs in addition to the City of Orange Police Department. On 6/28/21, the Assessment for Residential Treatment (ART) Team moved from Santa Ana to the Westminster Clinic location and have expanded to increase staffing. This expansion accommodated the increasing demand for assessment for residential treatment and created a more efficient process for connecting individuals to residential services. Additionally, to support successful linkage and reentry for individuals with behavioral health disorders, a training presentation was developed and offered in May and June for Correctional Health Services and Behavioral Health staff and contracted providers who work with justice-involved population. The training presentation focused on best practices and guidelines for successful transition, post-custody behavioral health services that are available, and coordination and collaborative efforts and strategies to support continuity of care.

During this quarter, there were 393 referrals received from Probation. Of those assessed by AB 109 screeners, 320 service referrals were made and of those service referrals 164 (51%) resulted in admission. Of the service referrals made, 22% were for residential SUD treatment, 41% for outpatient SUD treatment, 12% for detox, 5% for recovery residences and mental health short-term housing, 6% for mental health outpatient and bridge medication, 3% for FSP, and 10% for methadone maintenance. For service referrals that were made but did not result in admission, primary reasons included lack of client follow through

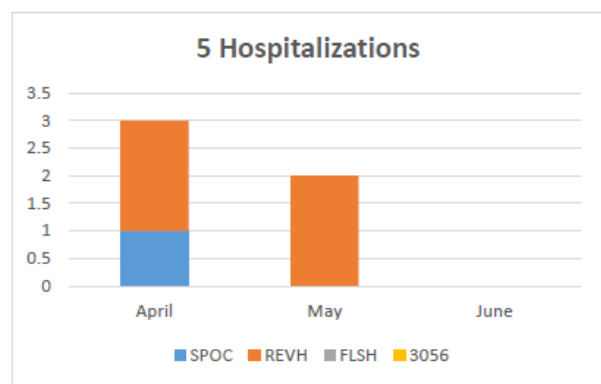

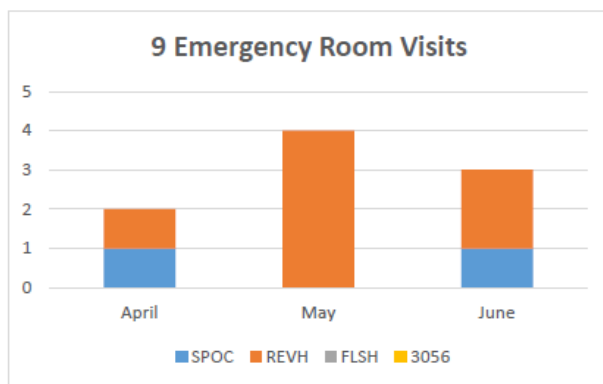

with scheduled intake appointment and client declined treatment. When an individual does not enroll in services Probation is notified and the HCA AB 109 team works with Probation to engage the individual in appropriate services.

### Correctional Health Services

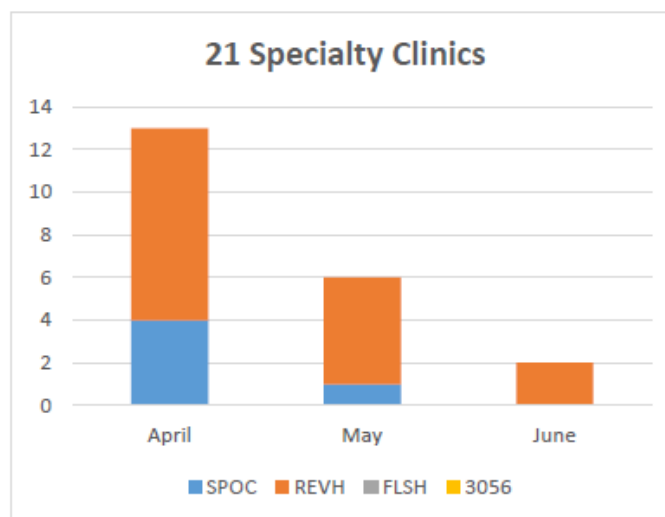

#### **Vivitrol Administration, Emergency Room, and Hospitalizations**

Correctional Health Services' staff administered zero (0) Vivitrol in the second quarter of 2021. A total of fourteen (14) AB 109 inmates were either hospitalized or treated in the Emergency Department. There was no change from the previous quarter.

### **Specialty Clinics**

All primary care physician services are provided within the jail; however, when an AB 109 inmate needs specialty services, they are transported to specialty medical clinics off-site—such as, Cardiology, Nephrology, Oncology, OB, Surgery, etc.. There are currently 26 specialty clinic services available with 21 clinic visits completed during the 2nd quarter of 2021 for AB 109 inmates specifically. This equates to approximately 3% of the total specialty clinic services for this quarter.

In-custody Correctional Health Services triages and screens every AB 109 inmate in the jail to determine their medical and mental health needs and subsequent treatment and medication plan. The volume of patients is reflected in the Sheriff's section of this report, as all in-custody inmates on the Sheriff's census are also managed by in-custody healthcare staff.

Since the inception of AB 109 through June 30, 2021, OC Probation has supervised 10,254 former state prisoners.

As of June 30, 2021, 1012 individuals were on PCS active supervision.

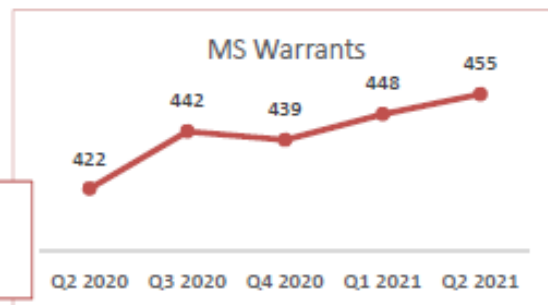

PCS individuals without custodial sanctions are mandatorily discharged after one year. During the second quarter of 2021, 86 individuals were released on one-year mandatory terminations.

### Mandatory Supervision

Individuals with MS Convictions from October 1, 2011 through June 30, 2021 = 4,428

Mandatory Supervision (MS) individuals are offenders sentenced under PC § 1170(h) who receive jail time followed by supervision. During the second quarter of 2021, 74 individuals were sentenced to MS. In addition, 63 individuals were sentenced but are still in Orange County Jails – once released, OC Probation will supervise them.

As of June 2021, 371 individuals are actively supervised while 455 individuals are on active warrant.

\* In response to the COVID-19 pandemic, the California Governor declared a State of Emergency in March 2020. The State also closed courts, altered the timing of prison releases to Counties and enacted measures, such as zero bail, to reduce jail populations. These actions affected PCS releases, MS convictions, Warrants, Revocations, and Flash Incarcerations.
