

FY 2024-25 Community Corrections Partnership Survey PART A

Part A of the Fiscal Year (FY) 2024-25 Community Corrections Partnership (CCP) Survey collects information about CCP Membership and implementation of the county's CCP plan. For detailed guidance on how to complete Part A of the CCP Survey, please refer to the [FY 2024-25 CCP Survey Data Reporting Guide](#).

Part A is divided into five (5) sections:

- Section 1: Respondent Information
- Section 2: CCP Membership
- Section 3: Goals, Objectives, and Outcome Measures
- Section 4: Types of Programming and Services
- Section 5: Optional Questions

When applicable, use **person-first language** and terminology that eliminates potential generalizations, assumptions, and stereotypes.

Responses to the CCP Survey shall represent the collective views of the CCP and not a single agency or individual.

SECTION 1: RESPONDENT INFORMATION

Section 1 asks questions related to the county for which survey responses are provided, the individual who is completing the survey, and who BSCC may contact for follow-up questions. There are three (3) questions in this section.

1. Please identify the county name for which this survey is being submitted: [Orange County](#)
2. Provide the contact information for the individual completing this survey in the spaces provided to the right of the list.

Goal	Reduce reliance on corrections by diverting mentally ill individuals out of the justice system and into community-based treatment when possible (Public Defender)
Part of FY 23-24 CCP Plan?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> NO
Objective:	Diverting mentally ill individuals out of the justice system when appropriate by assessing for and meeting the medical and social needs of clients who enter the justice system because of their mental illness
Objective:	
Objective:	
Outcome Measure:	Number of individuals successfully diverted under Penal Code section 1001.35 et seq
Outcome Measure:	The number of individuals successfully completing diversion and having their cases dismissed

Outcome Measure:	The wait times between the filing of a motion for diversion and its adjudication
Briefly describe progress toward goal:	AB 1810 created Penal Code section 1001.35 (Mental Health Diversion) in 2018. Progress was slow until the Superior Court, at the urging of justice partner agencies, created a unitary court to hear mental health diversion cases in summer of 2021. The result has been significant in the amount of individuals being diverted but the demand for diversion has exceeded the ability of justice partner agencies to timely adjudicate cases.
Rated progress toward the goal:	<input type="checkbox"/> No progress <input checked="" type="checkbox"/> Partially achieved <input type="checkbox"/> Fully achieved

<p>Outcome Measure:</p>	
<p>Briefly describe <i>current</i> progress toward goal:</p>	<p>The AB 109 CITF has progressed toward FY 2024-25 goals. The AB 109 CITF recently worked with federal partners during Operation Orange Crush. The week long operation involved working with the U.S. Marshals Service looking for federal fugitives as well as AB 109 participants that had warrants or were absconding. One of the arrests conducted during the operation by the AB 109 CITF, will be filed federally. During Operation Orange Crush members of the AB 109 CITF were deputized as federal agents by the U.S. Marshals Service.</p> <p>The unit has also implemented two new investigative software programs utilized by the units Research Analyst. The software programs will assist in the apprehension of subjects. Also during this next FY the AB 109 CITF will be attending various specific training courses to increase knowledge and to have a better response when dealing with AB 109 Participants.</p> <p>In the month of July, the AB 109 CITF assisted the Santa Ana Police Department (SAPD) and OC Probation Department with a probation compliance sweep. As a result, several arrests were made, and the seizure of an AR-15 style assault weapon. The weapon was recovered from a wanted Mandatory Supervision probationer.</p> <p>In the month of September 2024, the AB 109 CITF assisted SAPD with a call of an active shooter at a local Intermediate School. Although the call turned out to be a false caller, the team responded and took appropriate action in their response. The team assisted SAPD with traffic control and safely clearing out students and staff from their classrooms.</p>

SECTION 5: OPTIONAL QUESTIONS

Section 5 asks optional questions about evaluation, data collection, programs and services, and local best practices. There are 9 questions in this section. Responses will be used by the BSCC and its justice-system partners to better understand the needs of counties. If the CCP chooses not to answer an optional question, please respond “Decline to Respond.”

15. Describe the process the CCP uses to determine potential programs and/or services for local implementation using Realignment funds.

> Potential programs and/or services are either brought forth by the CCP Executive Members or the AB 109 Working Group through the CCP Coordinator. At the quarterly meetings, the AB 109 Working Group may introduce and vet potential programs and/or services for local implementation utilizing Public Safety Realignment funds. Since the AB 109 Working Group is made up of individuals who are at the forefront of delivering programs and/or services to the AB 109 population, they are well in-tune with their gaps, needs, and challenges. Potential programs and/or services are clearly identified and presented to the CCP Executive Committee for potential funding. Similarly, any CCP Executive Member may identify a need and may direct the CCP Coordinator to return to the AB 109 Working Group to go through their process or, in the case of small requests, may make them directly. All funding and appropriations must also be approved by the Orange County Board of Supervisors as submitted.

16. Does the county evaluate the effectiveness (as defined locally) of programs and/or services funded with its Public Safety Realignment allocation? Check the appropriate box to the left of the list.

Yes
 No

If yes, explain how.

>

1) Orange County HCA BHS MHRS provides behavioral health and recovery residence services to persons released from correctional facilities and under the supervision of the Orange County Probation Department. Outcome measure data is collected from service providers.

2) Orange County Probation Department conducts continuous evaluation and monitoring of the Orange County Day Reporting Centers (DRCs), which serves the AB 109 and Probation population. Recidivism outcomes of DRC participants are tracked by DRC site (i.e., Santa Ana and Westminster) as well as by the type of program exit. The Department also regularly evaluates the random drug testing (RDT) program and its effectiveness in reducing the drug use of clients. Furthermore, the department also tracks the bed utilization rate for our contracted re-entry housing services program.

17. Does the county consider evaluation results when funding programs and/or services? Check the appropriate box to the left of the list.

- Yes
- No

If yes, explain how.

>The Orange County Board of Supervisors is provided with metrics when programs/services and contract renewals come before them for approval. This information is used to ensure that funding is directed to result-oriented programs and/or services.

18. Does the county use [BSCC definitions](#) (average daily population, conviction, length of stay, recidivism, and/or treatment program completion rates) when collecting data? Check the yes or no box to the left of each BSCC Definition listed, as applicable.

Yes	No	BSCC Definition

19. What percentage of the Public Safety Realignment allocation is used for evidence-based programming (as defined locally)? Check the most appropriate box to the left of the list of percentages.

Percent for Evidence-Based Programming	
<input checked="" type="checkbox"/>	Less than 20%
<input type="checkbox"/>	21% 40%
<input type="checkbox"/>	41% 60%
<input type="checkbox"/>	61% 80%

20. We would like to better understand the county's capacity to offer mental health, substance use disorder, behavioral health treatment programs, and/or other services. What type and level of services are now available?

>In Orange County, behavioral health services are offered through Health Care Agency Correctional Health Services (CHS) and Behavioral Health Services Mental Health and Recovery Services (MHRS).

CHS Provides individualized treatment plans, group therapy that includes Anger Management, MRT, Re-Entry, and Process, comprehensive discharge planning and linkages to community services. Many of the community providers provide in reach services and connect with individuals while they are still incarcerated to ensure successful linkages. CHS also provides all three FDA-approved medications for Medication-Assisted Treatment (MAT). CHS provides a Case Management nurse to meet with individuals on MAT to develop a discharge plan and linkage to community MAT providers. Group therapy on relapse prevention and MAT are also provided. Additionally, Phoenix House provides an in-custody substance use program for incarcerated individuals, while coordinating continued care for them upon release. These individuals are eligible to receive ongoing services post-custody until they are

The OC Links Behavioral Health Services Line (1-855-OC LINKS) is a single-entry point for mental health and substance use services and is available 24 hours a day, 7 days a week. OC Links provides information, screening, referral and linkage, and crisis response. Callers can be potential participants, family members, friends, law enforcement, other first responders, providers, or anyone seeking behavioral health resources and support.

For individuals with serious mental illness, BHS MHRS offers a continuum of services and supports including an Open Access program with two locations, four regional County-operated outpatient clinics, Recovery Services programs, Program of Assertive Community Treatment (PACT) programs, and various Full Service Partnership (FSP) programs that serve adults and older adults. There are also three Crisis Stabilization Units and four Crisis Residential programs, and one Adult In-Home Crisis Stabilization program. Additionally, BHS MHRS contracts with six behavioral health inpatient hospitals within Orange County to provide acute psychiatric inpatient services for adults. The County has a robust collaborative court program and one FSP designated to work with AB 109 individuals who need intensive outpatient services. Additionally, the HCA BHS MHRS has a team of behavioral health clinicians who are also embedded in the four Probation Offices to screen, assess and facilitate linkages for AB 109 clients transitioning from incarceration to the community, including AB 109 individuals with mild to moderate mental health issues.

HCA BHS MHRS also offers a continuum of services and supports for justice involved individuals with substance use disorder and co-occurring mental illness. Services include Clinically-Managed Withdrawal Management, Narcotic Treatment Program, Residential Treatment, Intensive Outpatient and Outpatient treatment including Medication Assisted Treatment, and Recovery Residence Services.

Orange County opted into the State's Drug Medi-Cal Organized Delivery System (DMC-ODS) Waiver in July 2018. Admission into the different DMC-ODS levels of care is based on the American Society of Addiction Medicine (ASAM) criteria and medical necessity. All eligible Medi-Cal beneficiaries can access DMC-ODS services by calling the Beneficiary Access Line at (800) 723-8641, 24 hours a day, 7 days per week. Those with co-occurring issues are linked to appropriate services to address both substance use and mental health challenges.

21. What challenges does the county face in meeting the above program and service needs?

>

Housing for justice involved individuals with behavioral health issues continues to be a challenge. There continues to be limited housing resources, particularly for individuals with a criminal history. The ability to provide a quick and appropriate housing placement for justice involved individuals exiting jail is also a challenge. Collaboration between service providers and housing providers remains a challenge. HCA continues to work to increase housing opportunities, reduce barriers to housing placement and improve collaboration between housing and service providers to support justice involved individuals with behavioral health issues.

For substance use services, one challenge is not having enough providers that can

provide residential treatment services. This past year, HCA lost a perinatal residential provider, which further decreased treatment capacity. Coordinating for residential placement can also be challenging due to requirements of needing authorization prior to admission to treatment and not being able to reach clients when a treatment bed is available. HCA continues to work to increase treatment capacity and increase coordination for placement.

Linking individuals releasing from jails and discharging from hospitals who may need SUD MAT services is another challenge. HCA BHS MHRS has developed and implemented ways to improve access and make the service available for these individuals with Drug Medi-Cal as well as those with no benefits who need to continue MAT services. Currently HCA has 1 staff providing in-reach services in hopes to engage individuals getting ready to discharge from County jails for ongoing SUD services. CHS and AB 109 collaborated and did a weekly education and resources class regarding medicated assisted treatment (MAT) and available behavioral health services. The staff also works closely with staff from County jails and the Santa Ana SUD Clinic to ensure that a follow up appointment is scheduled and that transportation is arranged as needed to facilitate linkage upon release.

- 22.** What programmatic changes and/or course corrections has the CPP made in the implementation of Public Safety Realignment that it believes other counties would find helpful?
