COUNTY OF ORANGE
2011 REALIGNMENT – COMMUNITY CORRECTIONS (AB 109)
FUNDING REQUEST GUIDELINES

In 2011, Assembly Bill (AB) 109, also referred to as 2011 Realignment, was enacted which mandated individuals sentenced to non-serious, non-violent or non-sex offenses serve their sentences in county jails instead of state prison. Offenders convicted after October 1, 2011, who have no current or prior statutorily defined serious, violent, or sex-offense convictions serve time locally (regardless of length of sentence) with the possibility of community supervision in place of time spent in custody.

AB 109 provides a dedicated and permanent revenue stream through a portion of Vehicle License Fees (\$12) and State sales tax (1.0625%). Funding became constitutionally guaranteed by California voters under the passage of Proposition 30 in 2012. The legislation also identified the Community Corrections Partnership in each county as the governing body over the use of the funds received.

The Orange County Community Corrections Partnership (OCCCP) serves as the collaborative group charged with advising on Realignment programs and approving the annual allocation of the anticipated AB 109 funding for the fiscal year. Beginning with FY 2018-19, the OCCCP has set aside funds to be used for reentry services or projects subject to approval by the OCCCP.

FUNDING REQUEST PROCESS

A process has been established for departments and other partners to submit project funding requests to the OCCCP to request funding from the amount set aside for CCP-approved projects.

Projects submitted for AB 109 funding should meet the following criteria:

- A. Support the OCCCP's Vision to enhance the quality of life of Orange County residents by promoting public safety, reducing recidivism and creating safer communities.
- B. Support the OCCCP's Mission to enhance public safety through holding individuals accountable, facilitating successful reentry into the community, reducing recidivism, and improving outcomes for individuals by utilizing evidence-based and best practices and programs that support victims and community restoration in partnership with community-based organizations.
- C. Fill an identified gap in the Community Corrections System of Care.

Each entity submitting a funding request shall submit utilizing the format provided. Requests will be reviewed quarterly per the timeline indicated below:

Request for Funding Due Date	For the OCCCP Meeting Date in:
March 1	4 th Thursday in April
June 1	4 th Thursday in July
September 1	4 th Thursday in October
December 1	4 th Thursday in February

In some cases, an entity may be asked to provide additional information and may be asked to make a presentation to the subgroup of the AB 109 Working Group related to its request. The recommendations will be agendaized for the following OCCCP Executive Committee meeting for consideration.

FUNDING REQUEST FORM

Please complete and submit your completed requests to Jamie Tran of the County Executive Office at Jamie.Tran@ocgov.com.

Project Title:	HIRE Reentry Resource Fair		
Total Funding Requested:	\$15,000	Fiscal Year(s) Covered:	2026-2027

Requesting Agency: **Hub for Integration, Reentry & Employment (HIRE)**

Contact Name: **Meghan Medlin**

Phone: **714-784-7920 x101**

Contact Email: **mmedlin@hireoc.org**

Provide a detailed description of the project requested to be funded.

The Hub for Integration, Reentry & Employment (HIRE) was founded in 2020 in response to the need for integrated services for people being released back to the Orange County Community.

HIRE's mission is to maximize the skills and opportunities for formerly incarcerated and system-impacted youth and adults in Orange County through employment, mentorship and community building. We envision a unified Orange County where gaps in social, political, and economic opportunities are eliminated for formerly incarcerated and system-impacted youth and adults. To realize the promise of our mission, we are committed to the following principles: 1. Connect and unite Orange County stakeholders to support the reintegration of formerly incarcerated community members. 2. Use research informed and data driven strategies grounded in equity and justice. 3. Lift the voices of formerly incarcerated and system-impacted people.

HIRE will be hosting its 6th Annual Reentry Resource Fair at the Grove of Anaheim in spring 2027. This event drew over 565 people in 2025 including 50+ vendors. Individuals who attend are linked directly with resources and employment to help them better reintegrate. It also serves as a method for service providers in the community to connect, share resources and network with one another. The Grove of Anaheim space is provided at no cost by OCVIBE and the City of Anaheim (chair/table rental, staffing/event costs are separate).

Please direct all questions to Jamie Tran, CEO Budget Office.
714.834.2320 or via email at Jamie.tran@ocgov.com

The event is held in a centralized location (Anaheim) with public transportation access making it easier for attendees to access and attend. In addition, it is an “adult-only” event geared towards justice involved individuals and their immediate families so that people who may have restrictions to being around children are not in violation. This event is also open to the general public, targeting other populations such as the unhoused, SUD community, and more so that there is a wider reach within the community.

Funding from the CCP would assist with the planning, coordination, logistics and direct costs for the event (ex. staffing, tables/chairs, decorations, flyers/marketing, bus passes and tote bags for attendees, lunch for vendors and volunteers etc.). Coverage of the 2022 fair can be found here: [OC Register](#) and [NBC 4 News](#)

Explain how the project supports the OCCCP’s Vision and Mission.

The resource fair meets the OCCCP’s vision by connecting returning citizens with the jobs, services, transportation, and legal assistance needed to help reintegrate safely (and successfully) into our communities. This event is a county-wide collaboration among community-based providers, employers, educators, and county and government agencies who come together to link clients with services, network with one another and create an overall more unified and safer community.

The CCP’s mission to enhance public safety by holding offenders accountable and reducing recidivism through fiscally responsible, quantifiable, evidence-based, and promising practices that support victims and community restoration is met through the unifying of service providers and creating linkages for returning citizens to services and resources in the community that will aid in their successful reentry.

While quantifying actual recidivism reduction due to the event itself would not be easily done given the funding and time constraints, research indicates that being linked with identification and important documents, transportation, food, clothing and amenities, childcare and support, legal assistance, federal assistance benefits, bank accounts, technology assistance, employment, housing, and sober living residences can have a profound effect on one’s ability to successfully reintegrate. Resource fair attendees will have access to all of these types of services at the event and are able to directly connect with and speak to the organizations and agencies equipped to help them succeed.

Explain how the project supports the Community Corrections System of Care.

The Integrated Services Strategy focuses on a collaborative success strategy for the county’s highest utilizers of the corrections system. The resource fair is first and foremost, a collaboration of all community stakeholders for the successful reintegration of local offenders. Any adult who has criminal justice involvement (in addition to the community at large) is able to attend the event and get connected with the services they may need to get back on their feet.

The Integrated Strategy devotes attention to addressing the underlying issues that the high utilizers have – which include things like employment, mental health, sobriety, housing, and transportation. Attendees will have access to these services in one place making it easier for them to link with the services, ask questions and find out more about them – effectively matching the “no wrong door” approach the strategy seeks to address under the Pillar 4/Reentry. With numerous service providers of all types in attendance, attendees are able to access the organization or service that best suits their individual situation.

Please direct all questions to Jamie Tran, CEO Budget Office.

Public Safety Realignment in Orange County

AB 109 Quarterly Report

October to December 2025

Prepared by:

Orange County Community Corrections Partnership

VISION STATEMENT

"Enhancing the quality of life of Orange County residents by promoting public safety, reducing recidivism and creating safer communities."

MISSION STATEMENT

The **Mission** of the Orange County Community Corrections Partnership is to enhance public safety by holding individuals accountable, facilitating successful reentry into the community, reducing recidivism, and improving outcomes for individuals by utilizing evidenced based and best practices and programs that support victims and community restoration in partnership with community-based organizations.

County Executive Office
Reentry Services

The Community Corrections System of Care has been a primary focus of the County of Orange's OC CARES initiative to enhance and transform the justice system through prevention and intervention. In 2019, the Board of Supervisors adopted the OC CARES 2025 Vision, which linked the justice systems and county's various systems of care to provide justice-impacted and at-risk individuals, regardless of probationary status, with the support and services designed to promote self-determination and reduce their involvement in the justice system and facilitate successful reentry.

As the County and stakeholders worked through the analysis of the Community Corrections System of Care, a significant gap was identified with the lack of integrated and coordinated reentry services. This led to capacity issues preventing individuals from being placed in programs, referrals made with limited follow up. To address this issue and initiate the integration and collaborations across departments, the County Executive Office took ownership of the Reentry portion of the 2025 Vision and is currently working with Probation and other stakeholders to ensure the essential elements for regional, central, mobile and workforce-focused reentry programs will provide accessible and supportive services to justice-involved individuals to assist with a positive transition into the community.

All related projects have been included in the budget and strategic planning process and funding set aside when possible. 2011 Public Safety Realignment funding is critical to ensure the ongoing success of these programs and facilities. The following highlights the projects and enhancements made or are in progress that are funded or partially funded by 2011 Public Safety Realignment.

Public Relations Campaign (completed)

A targeted communication campaign was created by a contracted public relations firm. This included establishing a front-facing website with specific areas centered around individuals looking for assistance and services; their family and support network; and the Orange County communities; marketing assets to promote the services and facilities aimed at engaging and showing our clients a future outside of the justice system; and messaging for the residents to inform them what the County is doing and where.

Data Analytics (implemented)

The investments being made to enhance the Community Corrections System of Care are significant and it is essential that data be gathered and analyzed to support the success or additional investments. These are new programs for the County and the decisions must be data driven and take into consideration the various Systems of Care supported by the County. The Data Analytics Unit in the County Executive Office is currently conducting a study on recidivism for the County and developing dashboards and key performance indicators for the OC CARES initiative to measure and report on projects going forward.

Coordinated Reentry Center (in progress)

Centrally located in Orange, Probation's Youth Guidance Center is being transformed into the County's first Coordinated Reentry Center. This facility is being completed in phases with phase one providing a dedicated 24-7 facility where anyone released will have a place to go. Individuals seeking to receive or continue reentry services will be connected to the Workforce Reentry Center and likely transported directly upon release from incarceration. The individuals will enter through a reception area where they will be welcomed and linked to a care/case manager who will assess and begin to address their needs. Temporary housing will be provided for males and females, and the facility will include space for programs, family reunification,

counseling, and any other needs determined necessary to remove obstacles for successful reentry. Additional phases are still in the preliminary planning stage.

Status: Final design documents are in process and project costs have been confirmed through a 3rd party and remain within budget. Construction will begin in January 2026 and anticipated to take approximately 18 months with completion around July 2027.

Reentry Success Centers (Implemented)

To address barriers or limitations to access needed reentry services or support, the service delivery model adopted focuses on a regional approach that would bring the services and support to where the people are. In March 2024, a regional reentry success center was established in Laguna Hills (Verdugo) adjacent to an existing Probation Field Office and operated by Project Kinship. The Verdugo Office is a collaboration that includes Public Defender and Social Services staff on site and as needed, community providers, such as Working Wardrobes, to best meet the clients' needs at the point of time they are being served.

A second Reentry Success Center was implemented at the Manchester Office Building (MOB) across from the Juvenile Hall Complex in August 2025. The MOB Reentry Success Center is being operated by Project Kinship and address the services and support for the juvenile and TAY population and will include dedicated and flexible training space, breakout rooms, and offer tattoo removal services.

Mobile Reentry Services (implemented)

A significant and innovative effort was made by Probation to utilize dedicated multi-resource vehicles and vans to go in the communities to offer services, support and information to their clients and other justice-involved individuals, their families and their support systems. This not only will reduce barriers to accessing services or programs but will give Probation a positive presence in the community and at any large County or community event. Probation is also working with the Courts to allow

for mobile access and required check ins to increase compliance and demonstrate their commitment to their clients to promote self-determination and facilitate successful reentry.

Workforce Reentry Center (in progress)

A Workforce Reentry Center (WRC) is being established at the former site of the County's Animal Care Center. The WRC will include a training lab, retail operations, job placement services and housing. The program will have eligibility requirements and link to in-custody training. Temporary housing on-site will be provided for participants and will include support services. To ensure success of the program, dedicated space was allocated at the MOB Reentry Success Center to begin the Workforce Reentry program for the County, which will be operated by OC H.I.R.E.

Status: Demolition has been completed, and design documents and budget are being finalized. The facility is estimated to be completed in 2027.

Community Based Organizations (ongoing)

In addition to the above-named projects, quarterly meetings are held between the County and organizations providing services and programs for the same population. As the County has continued to try to increase capacity, organizations that have one-time needs that would allow them to expand and serve more or provide additional or enhanced services may request one-time funding. Requests are reviewed by a group consisting of a member for the stakeholder departments and overseen by the County Executive Office.

The Public Defender's Office continues to assist in the reduction of recidivism by identifying and removing re-entry barriers within our Realignment client population. The Public Defender's Office Recidivism Reduction Unit (RRU) consists of attorneys, resource paralegals, Recidivism Reduction Advisors (RRA), and support staff. The RRU team is dedicated to creating improved opportunities for housing, education, employment, and mental health and substance abuse treatment services to assist our realignment population in acclimating back into society upon their release from custody. With respect to our AB109 population, our overall numbers of Post-release Community Supervision (PCS), Mandatory Supervision (MS), parole cases, and contested hearings remain consistent.

During this quarter, the Public Defender's Office handled the following AB109 matters:

PCS Cases Opened	MS Cases Opened	Parole Cases Opened	Total Court Appearances (includes PCS, MS and Parole)	Contested Hearings
459	57	154	1,132	57

Recidivism Reduction Unit

The Public Defender's Recidivism Reduction Unit works closely with our AB109 clients in order to determine their individual needs and to identify their individual barriers to re-entry. Our RRAs have continued to meet with in-custody clients for the purpose of conducting comprehensive life interviews that help identify any obstacles in finding housing, employment, and mental health and substance use disorder (SUD) services. RRAs then collaborate with other county agencies including the Probation Department, Health Care Agency and the Orange County Sheriff's Department to improve the delivery of necessary services.

For our in-custody AB109 clients who suffer from SUDs, our RRAs conduct assessments using the ASAM tool to determine the client's necessary level of treatment. RRAs then work with Health Care Agency to secure appropriate treatment options. For our in-custody SUD clients who do not actively receive Medi-Cal, and for those who are in need of a CalOptima-funded-bed, our RRAs refer them to our community partner, Project Kinship. Project Kinship meets with the client while they are in-custody and assists the client in applying for Medi-Cal prior to their release. For out-of-custody clients in need of Medi-Cal assistance, we provide direct linkage and application assistance and guidance.

For our in-custody AB109 clients that suffer from mental illness, our RRAs link them directly with Correctional Health Services' Jail to Community Re-entry Program (JCRP). Our clients are assessed by correctional mental health staff and are provided access and linkage to behavioral health, and supportive services. This is just another example of how the RRU works with community partners and other agencies to resolve re-entry obstacles, decrease recidivism, and increase community safety.

In addition, our RRAs assist our AB109 clients with transportation, transitional housing, SSA benefits, Medication-Assisted Treatment (MAT), and locating inpatient and outpatient SUD programs. Our clients' needs are unique and varied. Because of this, our RRAs work alongside our attorneys, resource paralegals,

and support staff to provide a variety of resources. At times, our RRU team assists our clients at a very basic level by providing food and clothing. Often our clients have more complicated needs, which require additional assistance. This assistance can include:

- Obtaining vital records such as identification, driver's licenses, and birth certificates
- Helping clients enroll in programs for family reunification services
- Acquiring immigration documents to help clients obtain citizenship
- Helping clients obtain government assistance, including General Relief benefits, food stamps, and Medi-Cal
- Assisting clients with receiving mental health services
- Helping clients receive veteran benefits and assistance
- Helping clients locate educational opportunities, professional licensing or vocational schools
- Connecting clients with SUD, mental health, and housing resources in neighboring cities

Within the RRU, our Clean Slate program assists clients with legal barriers in order to increase opportunities in employment, professional licensing, and consumer credit. Our attorneys and paralegals collaborate with community organizations and community supervision to provide on-site legal advice on how to take advantage of motions and petitions offered by our Clean Slate program and to provide participants with the resources listed above. Our attorneys and paralegals provide weekly on-site assistance at Project Kinship, and our paralegals provide assistance three times a month at different parole and probation day reporting centers within the county.

Recently, the Public Defender's Office was invited by the California Department of Corrections and Rehabilitation Division of Adult Parole Operations to participate in a Reentry Resource Fair. During the event, inmates were given the opportunity to interact with various service providers including employment, transitional housing, mental health services and other community reentry services. Our RRA's provided reentry information, which included how to secure housing, obtain vital records and work documents, treatment opportunities, and educational and occupational resources available to them upon their release to Orange County.

Additionally, the RRU currently has two social workers assigned to Prop 36. Their role is to ensure that our clients have a smooth transition upon release. They are present in court on Mondays to facilitate connections for clients awaiting release into residential programs. Our social workers actively communicate with providers overseeing shelter beds, ensuring proper engagement and support. Our primary goal is to secure stable housing for clients while they wait for a residential placement. Although resources are limited, our social workers strive to provide the best possible support for clients during their transition from jail to the community on Prop 36. Our social workers are also a point of contact for our office, as clients need reminders for appointments and guidance on how to navigate through HCA referral process.

Orange County Public Defender's Office
Sara Nakada, Public Defender

Our office continues to partner with the county to provide on-site legal assistance and reentry services at Verdugo, which is the county's first reentry center. At Verdugo, clients are provided information regarding their supervision obligations as well as resources to assist them in complying with court ordered commitments and reintegrating into the community, all of which is aimed at reducing recidivism.

Additionally, our office's collaboration with the Orange County Sheriff's inmate services and correctional programming continues. Our attorneys, paralegals regularly meet with inmates housed in the Transitional Age Youth (TAY) and HUMV units, as well as inmates participating in the "All In" program. Our attorneys and paralegals and social workers provide advice and guidance related to navigating the criminal justice system, successfully completing post-incarceration supervision, employment skills, child support, and our Clean Slate Program resources.

The RRU is committed to aiding clients as they reenter into the community by helping clients meet the needs and demands of present society. As such, our paralegals provide weekly life skills education to a selected group of individuals, prior to their release from custody. Our paralegals facilitate Moral Reconciliation Therapy (MRT), which assists with developing social, emotional, and thinking skills in order to aid these individuals in adjusting and succeeding upon their reentry.

During this quarter, our RRU team has actively filed the following motions and petitions:

- Penal Code 1203.4 motions requesting felony and misdemeanor convictions be set aside and dismissed from the client's record
- Petitions for Certification of Rehabilitation requesting a full pardon from the Governor
- Petitions to dismiss and seal convictions related to loitering with the intent to commit prostitution, pursuant to Senate Bill 357
- Petitions to terminate sex offender registration, pursuant to Senate Bill 384

These motions and petitions are of significant benefit to our clients as they eliminate or reduce obstructions to employment opportunities.

With the assistance of the Public Defender's RRU team, Realignment clients continue to make significant progress towards creating stability by learning life skills, obtaining employment, locating housing, and receiving treatment for substance use disorders and mental health diagnosis, thereby reducing recidivism and increasing public safety.

Total Population Analysis

In the 4th quarter of 2025, the OCDA handled a total of 504 petitions for a violation of AB109 supervision. The 504 petitions were for a total of 415 defendants. Of the 415 defendants, 328 (79%) were repeat offenders, having received at least 1 prior petition, 188 (45%) had at least 5 prior petitions, and 98 (24%) had more than 10 prior petitions.

Additionally, in the 4th quarter of 2025, the OCDA filed 1104 new criminal cases – 820 felony (74%), 284 misdemeanor (26%)- against a total of 961 defendants who are currently or previously on AB 109 supervision. Narcotic Possession (478), Theft (90), Weapons (60), Auto Theft (24), and Narcotics Sales (23) charges were the most common new felony filings against an AB109 individual.

Overall, PRCS defendants remained the largest population of violators, and they were most likely to commit new offenses.

*Note: The number of clients admitted to Recovery Residences and Short-Term Housing, as well as Narcotic Treatment Program (including MAT), exceeds the number of referrals due to instances of self-referrals and individuals who are identified as AB 109 clients only after admission.

HCA Behavioral Health Services (BHS):

HCA AB 109 Screener Clinicians are co-located at all four probation sites: Anaheim, Santa Ana, Westminster, and Laguna Hills. These clinicians conduct comprehensive assessments for individuals referred by Deputy Probation Officers to determine the most appropriate level of care for substance use or mental health needs. The programs are voluntary and designed to provide community-based services and support that address behavioral health issues and reduce recidivism.

AB 109 clients have access to a wide range of services tailored to their individual needs, including mental health treatment, substance use services, housing assistance, employment resources, and transportation. The clinician facilitates referrals to appropriate behavioral health care providers and coordinates services in collaboration with probation officers and other community partners to ensure continuity of care.

A System Navigator works alongside clinicians to strengthen care coordination and help clients achieve their goals. The System Navigator assists with linkage to community resources, arranges transportation to treatment facilities such as outpatient clinics, and provides additional support to promote engagement in services. This collaborative approach supports client participation in treatment and promotes overall well-being.

As of December 2025, all clinician positions within the AB 109 program remain filled. Consistent staffing throughout the quarter has enhanced program stability, improved care coordination, and ensured seamless service delivery across all sites. This continuity benefits clients and reinforces strong partnerships among service providers, contributing to improved outcomes and reduced recidivism.

During this quarter, the HCA AB 109 team received 195 referrals from probation and completed 107 assessments. Of those assessments, 94 referrals were made to behavioral health services, and 146 resulted in admissions (see Table 1). The majority of referrals were made to behavioral health services for outpatient substance use disorder (SUD) treatment, and medically and socially managed withdrawal management (detox; see Table 1). Only a small portion of individuals accessed services such as Full-Service Partnerships (FSP), residential SUD treatment, narcotic treatment programs (including MAT), outpatient mental health, and recovery residences or short-term housing. Smaller percentages are not shown to protect the confidentiality of the individuals summarized in the data per the Department of Health Care Services (DHCS) Data De-identification Guidelines.

Admissions during this quarter exceeded the number of referrals received from probation. This variance is primarily due to self-referrals and post-admission identification of AB 109 clients. In some cases, individuals independently seek behavioral health services and are later confirmed as AB 109 participants after admission. Additionally, certain clients may enter treatment through other community pathways and are subsequently linked to the AB 109 program. This dynamic reflects the program's accessibility and the proactive engagement of justice-involved individuals in seeking care, both of which support the overall goal of reducing recidivism and improving behavioral health outcomes.

The HCA BHS AB 109 team continues to collaborate with probation officers to support justice-involved individuals on formal probation in Orange County who need mental health and/or SUD treatment services. This quarter reflects ongoing efforts to increase access and engagement in care and improve system navigation for individuals returning to the community.

Correctional Health Services

Vivitrol Administration, Emergency Room, and Hospitalizations

During the fourth quarter of 2025, Correctional Health Services staff did not administer any Vivitrol doses, consistent with the previous quarter. Additionally, nine (9) AB 109 inmates required hospitalization or emergency department treatment, reflecting a slight decrease from the 11 cases reported in the prior quarter.

Specialty Clinics

Most primary care physician services are delivered on-site within the jail facility. However, when inmates require specialized medical care, they are transported to off-site specialty clinics, which include services such as Cardiology, Nephrology, Oncology, Obstetrics, Surgery, and others. Currently, more than 30 specialty clinic services are available on and off-site. During the fourth quarter of 2025, AB 109 inmates accounted for 47 completed specialty clinic visits, representing approximately 6.46% of all specialty clinic services provided during that period.

In-custody Correctional Health Services triages and screens every AB 109 inmate in the jail to determine their medical and mental health needs and subsequent treatment and medication plan. The volume of patients is reflected in the Sheriff's section of this report, as all in-custody inmates on the Sheriff's census are also managed by in-custody healthcare staff.

Postrelease Community Supervision

Since the inception of AB109 through December 31, 2025, OC Probation has supervised 13,077 former state prisoners.

As of December 31, 2025, 888 individuals were on PCS active supervision.

PCS individuals without custodial sanctions are mandatorily discharged after one year. During the fourth quarter of 2025, 26 individuals were released on one-year mandatory terminations.

Mandatory Supervision (MS) individuals are offenders sentenced under PC § 1170(h) who receive jail time followed by supervision. During the fourth quarter of 2025, 21 individuals were sentenced to MS. In addition, 2 individuals were sentenced but are still in Orange County Jails – once released, OC Probation will supervise them.

As of December 2025, 209 individuals are actively supervised while 420 individuals are on active warrant.
