Public Safety Realignment in Orange County

AB 109 Quarterly Report

April to June 2026

Prepared by:

Orange County Community Corrections Partnership

VISION STATEMENT

"Enhancing the quality of life of Orange County residents by promoting public safety, reducing recidivism and creating safer communities."

MISSION STATEMENT

The **Mission** of the Orange County Community Corrections Partnership is to enhance public safety by holding individuals accountable, facilitating successful reentry into the community, reducing recidivism, and improving outcomes for individuals by utilizing evidenced based and best practices and programs that support victims and community restoration in partnership with community-based organizations.

The Community Corrections System of Care has been a primary focus of the County of Orange's OC CARES initiative to enhance and transform the justice system through prevention and intervention. In 2019, the Board of Supervisors adopted the OC CARES 2025 Vision, which linked the justice systems and county's various systems of care to provide justice-impacted and at-risk individuals, regardless of probationary status, with the support and services designed to promote self-determination and reduce their involvement in the justice system and facilitate successful reentry.

As the County and stakeholders worked through the analysis of the Community Corrections System of Care, a significant gap was identified with the lack of integrated and coordinated reentry services. This led to capacity issues preventing individuals from being placed in programs, referrals made with limited follow up. To address this issue and initiate the integration and collaborations across departments, the County Executive Office took ownership of the Reentry portion of the 2025 Vision and is currently working with Probation and other stakeholders to ensure the essential elements for regional, central, mobile and workforce-focused reentry programs will provide accessible and supportive services to justice-involved individuals to assist with a positive transition into the community.

All related projects have been included in the budget and strategic planning process and funding set aside when possible. 2011 Public Safety Realignment funding is critical to ensure the ongoing success of these programs and facilities. The following highlights the projects and enhancements made or are in progress that are funded or partially funded by 2011 Public Safety Realignment.

Public Relations Campaign (completed)

A targeted communication campaign was created by a contracted public relations firm. This included establishing a front-facing website with specific areas centered around individuals looking for assistance and services; their family and support network; and the Orange County communities; marketing assets to promote the services and facilities aimed at engaging and showing our clients a future outside of the justice system; and messaging for the residents to inform them what the County is doing and where.

Data Analytics (implemented)

The investments being made to enhance the Community Corrections System of Care are significant and it is essential that data be gathered and analyzed to support the success or additional investments. These are new programs for the County and the decisions must be data driven and take into consideration the various Systems of Care supported by the County. The Data Analytics Unit in the County Executive Office has worked with the departments and the California Department of Justice to determine the Board of State and Community Corrections defined recidivism rate trend for OC and is currently working on other recidivism measures to be able to monitor progress of the County's efforts. In addition, the Data Analytics team is working with departments to develop and determine key performance indicators to align with initiative objectives and goals which will be displayed in dashboards that will be added to the new OC CARES website.

Coordinated Reentry Center (in progress)

A Coordinated Reentry Center is in the process of being established. This facility is planned to be completed in phases with phase one providing a dedicated 24-7 facility where individuals involved in the justice system are able to transition from custody to community while staying engaged in their reentry programs until space is identified and available at their residential

treatment program or supportive housing program. The referred individuals will enter through a reception area where they will be welcomed and linked to a care/case manager who will assess and begin to address their needs. Temporary housing will be provided for males and females, and the facility will include space for programs, family reunification, counseling, and any other needs determined necessary to remove obstacles for successful reentry. Additional phases are still in the preliminary planning stage.

Status: Final design documents are completed, and project costs have been confirmed through a 3rd party and remain within budget. The project will ensure input from the community is considered and included to provide best outcomes for the residents and reentry clients. Related contracts, such as for renovation, will require Board approval.

Reentry Success Centers (Implemented)

To address barriers or limitations to access needed reentry services or support, the service delivery model adopted focuses on a regional approach that would bring the services and support to where the people are. In March 2024, a regional reentry success center was established in Laguna Hills (Verdugo) adjacent to an existing Probation Field Office and operated by Project Kinship. The Verdugo Office is a collaboration that includes Public Defender and Social Services staff on site and as needed, community providers, such as Working Wardrobes, to best meet the clients' needs at the point of time they are being served.

A second Reentry Success Center was implemented at the Manchester Office Building (MOB) across from the Juvenile Hall Complex in August 2025. The MOB Reentry Success Center is being operated by Project Kinship and address the services and support for the juvenile and TAY population and will include dedicated and flexible training space, breakout rooms, and offer tattoo removal services.

Mobile Reentry Services (implemented)

A significant and innovative effort was made by Probation to utilize dedicated multi-resource vehicles and vans to go in the communities to offer services, support and information to their clients and other justice-involved individuals, their families and their support systems. This not only will reduce barriers to accessing services or programs but will give Probation a positive presence in the community and at any large County or community event. Probation is also working with the Courts to allow

for mobile access and required check ins to increase compliance and demonstrate their commitment to their clients to promote self-determination and facilitate successful reentry.

The Common Good (in progress)

A Workforce Reentry Center (WRC) is being established at the former site of the County's Animal Care Center. The WRC will include a training lab, retail operations, job placement services and housing. The program will have eligibility requirements and link to in-custody training. Temporary housing on-site will be provided for participants and will include support services. To ensure success of the program, dedicated space was allocated

at the MOB Reentry Success Center to begin the Workforce Reentry program for the County, which will be operated by OC H.I.R.E.

Status: Groundbreaking occurred in June 2026 and is in progress. This facility and project have been rebranded as The Common Good.

Community Based Organizations (ongoing)

In addition to the above-named projects, quarterly meetings are held between the County and organizations providing services and programs for the same population. As the County has continued to try to increase capacity, organizations that have one-time needs that would allow them to expand and serve more or provide additional or enhanced services may request one-time funding. Requests are reviewed by a group consisting of a member for the stakeholder departments and overseen by the County Executive Office.

The Public Defender's Office continues to assist in the reduction of recidivism by identifying and removing re-entry barriers within our Realignment client population. The Public Defender's Office Recidivism Reduction Unit (RRU) consists of attorneys, resource paralegals, Recidivism Reduction Advisors (RRA), and support staff. The RRU team is dedicated to creating improved opportunities for housing, education, employment, and mental health and substance abuse treatment services to assist the realignment population in acclimating back into society upon their release from custody. With respect to Public Defender's AB109 population, the overall numbers of Post-release Community Supervision (PCS), Mandatory Supervision (MS), parole cases, and contested hearings remain consistent.

During this quarter, the Public Defender's Office handled the following AB109 matters:

PCS Cases Opened	MS Cases Opened	Parole Cases Opened	Total Court Appearances (includes PCS, MS and Parole)	Contested Hearings
619	54	229	1,964	20

Recidivism Reduction Unit

The Public Defender's Recidivism Reduction Unit works closely with the AB109 clients in order to determine their individual needs and to identify their individual barriers to re-entry. Our RRAs have continued to meet with in-custody clients for the purpose of conducting comprehensive life interviews that help identify any obstacles in finding housing, employment, and mental health and substance use disorder (SUD) services. RRAs then collaborate with other county departments including the Probation Department, Health Care Agency (HCA), and the Orange County Sheriff's Department to improve the delivery of necessary services.

For in-custody AB109 clients who suffer from SUDs, our RRAs conduct assessments using the ASAM tool to determine the client's necessary level of treatment. RRAs then work with Health Care Agency to secure appropriate treatment options. For the in-custody SUD clients who do not actively receive Medi-Cal, and for those who are in need of a CalOptima-funded-bed, the RRAs refer them to the County's community partner, Project Kinship. Project Kinship meets with the client while they are in-custody and assists the client in applying for Medi-Cal prior to their release. For out-of-custody clients in need of Medi-Cal assistance, we provide direct linkage and application assistance and guidance.

For in-custody AB109 clients that suffer from mental illness, the RRAs link them directly with Correctional Health Services' Jail to Community Re-entry Program (JCRP). Our clients are assessed by correctional mental health staff and are provided access and linkage to behavioral health, and supportive services. This is just another example of how the RRU works with community partners and other departments to resolve re-entry obstacles, decrease recidivism, and increase community safety.

In addition, our RRAs assist the AB109 clients with transportation, transitional housing, SSA benefits, Medication-Assisted Treatment (MAT), and locating inpatient and outpatient SUD programs. The clients' needs are unique and varied. Because of this, the RRAs work alongside our attorneys, resource paralegals,

Orange County Public Defender's Office

and support staff to provide a variety of resources. At times, the RRU team assists the clients at a very basic level by providing food and clothing. Often the clients have more complicated needs, which require additional assistance. This assistance can include:

- Obtaining vital records such as identification, driver's licenses, and birth certificates
- Helping clients enroll in programs for family reunification services
- Acquiring immigration documents to help clients obtain citizenship
- Helping clients obtain government assistance, including General Relief benefits, food stamps, and Medi-Cal
- Assisting clients with receiving mental health services
- Helping clients receive veteran benefits and assistance
- Helping clients locate educational opportunities, professional licensing or vocational schools
- Connecting clients with SUD, mental health, and housing resources in neighboring cities

Within the RRU, the Clean Slate program assists clients with legal barriers in order to increase opportunities in employment, professional licensing, and consumer credit. The attorneys and paralegals collaborate with community organizations and community supervision to provide on-site legal advice on how to take advantage of motions and petitions offered by the Clean Slate program and to provide participants with the resources listed above. The attorneys and paralegals provide weekly on-site assistance at Project Kinship, and the paralegals provide assistance three times a month at different parole and probation day reporting centers within the county.

The Public Defender's Office has also been invited by the California Department of Corrections and Rehabilitation Division of Adult Parole Operations to participate in Reentry Resource Fairs at their correctional facilities. During these events, inmates were given the opportunity to interact with various service providers including employment, transitional housing, mental health services and other community reentry services. The RRA's provided reentry information, which included how to secure housing, obtain vital records and work documents, treatment opportunities, and educational and occupational resources available to them upon their release to Orange County.

Additionally, the RRU has two social workers assigned to Prop 36. Their role is to ensure that the clients have a smooth transition upon release. They are present in court on Mondays to facilitate connections for clients awaiting release into residential programs. Our social workers actively communicate with providers overseeing shelter beds, ensuring proper engagement and support. Our primary goal is to secure stable housing for clients while they wait for a residential placement. Although resources are limited, our social workers strive to provide the best possible support for clients during their transition from jail to the community on Prop 36. Our social workers are also a point of contact for our office, as clients need reminders for appointments and guidance on how to navigate the HCA referral process.

Orange County Public Defender's Office

Sara Nakada, Public Defender

Item 3

The Public Defender's Office continues to partner with the county to provide on-site legal assistance and reentry services at Verdugo, which is the county's first reentry center. At Verdugo, clients are provided information regarding their supervision obligations as well as resources to assist them in complying with court ordered commitments and reintegrating into the community, all of which is aimed at reducing recidivism.

Additionally, the department's collaboration with the Orange County Sheriff's Department inmate services and correctional programming continues. The attorneys, paralegals regularly meet with inmates housed in the Transitional Age Youth (TAY) and HUMV units, as well as inmates participating in the "All In" program. The attorneys and paralegals and social workers provide advice and guidance related to navigating the criminal justice system, successfully completing post-incarceration supervision, employment skills, child support, and Clean Slate Program resources.

The RRU is committed to aiding clients as they reenter into the community by helping clients meet the needs and demands of present society. As such, the paralegals provide weekly life skills education to a selected group of individuals, prior to their release from custody. The paralegals facilitate Moral Reconnection Therapy (MRT), which assists with developing social, emotional, and thinking skills in order to aid these individuals in adjusting and succeeding upon their reentry.

During this quarter, the RRU team has actively filed the following motions and petitions:

- Penal Code 1203.4 motions requesting felony and misdemeanor convictions be set aside and dismissed from the client's record
- Petitions for Certification of Rehabilitation requesting a full pardon from the Governor
- Petitions to dismiss and seal convictions related to loitering with the intent to commit prostitution, pursuant to Senate Bill 357
- Petitions to terminate sex offender registration, pursuant to Senate Bill 384
- Proposition 47 petitions, which allow certain felony convictions to be recalled and designated as misdemeanors

These motions and petitions are of significant benefit to the clients as they eliminate or reduce obstructions to employment opportunities.

During this quarter, the Public Defender's Office has continued to coordinate and partner with the Office of Care Coordination and other county and community providers to assist individuals at the county's Same Day Solutions Fair. Participating individuals are provided with community and legal resources to assist with AB109 responsibilities.

With the assistance of the Public Defender's RRU team, Realignment clients continue to make significant progress towards creating stability by learning life skills, obtaining employment, locating housing, and receiving treatment for substance use disorders and mental health diagnosis, thereby reducing recidivism and increasing public safety.

Total Population Analysis

In the 2nd quarter of 2026, the OCDA handled a total of 406 petitions for a violation of AB109 supervision. The 406 petitions were for a total of 344 defendants. Of the 344 defendants, 270 (78%) were repeat offenders, having received at least 1 prior petition, 136 (40%) had at least 5 prior petitions, and 66 (19%) had more than 10 prior petitions.

Additionally, in the 2nd quarter of 2026, the OCDA filed 1066 new criminal cases – felony 803 (75%), 263 misdemeanor (25%)- against a total of 912 defendants who are currently or previously on AB109 supervision. Narcotic Possession (462), Theft (87), Narcotic Sales (37), and Auto Theft (34) charges were the most common new felony filings against AB109 individuals.

Overall, PRCS defendants remained the largest population of violators, and they were most likely to commit new offenses.

The following pages of this report break down the statistics by form of supervision-Mandatory Supervision (MS), PCS, and parole.

Behavioral Health Services

Table 1. Health Care Agency (HCA) AB 109 Referrals and Admissions from April to June 2026

Services	Referrals	Admissions
Residential Treatment	12	*14
Behavioral Health Treatment	105	*132
Recovery Residence and Short Term Housing	< 11	*33

*Note: The number of clients admitted to Residential Treatment, Behavioral Health Treatment, Recovery Residences, and Short-Term Housing exceeds the number of referrals due to instances of self-referrals and individuals who are identified as AB 109 clients only after admission.

HCA AB109 Screener Clinicians are co-located at all four Probation Department sites: Anaheim, Santa Ana, Westminster, and Laguna Hills. These clinicians conduct comprehensive assessments for individuals referred by Deputy Probation Officers to determine the most appropriate level of care for substance use or mental health needs. The programs are voluntary and designed to provide community-based services and supports that address behavioral health issues and reduce recidivism.

AB 109 clients have access to a wide range of services tailored to their individual needs, including mental health treatment, substance use services, housing assistance, employment resources, and transportation. The clinician facilitates referrals to appropriate behavioral health care providers and coordinates services in collaboration with probation officers and other community partners to ensure continuity of care.

A System Navigator works alongside clinicians to strengthen care coordination and help clients achieve their goals. The System Navigator assists with linkage to community resources, arranges transportation to treatment facilities such as outpatient clinics, and provides additional support to promote engagement in services. This collaborative approach supports client participation in treatment and promotes overall well-being.

As of March 2026, all clinician positions within the AB 109 program remain filled. Consistent staffing throughout the quarter has enhanced program stability, improved care coordination, and ensured seamless service delivery across all sites. This continuity benefits clients and reinforces strong partnerships among service providers, contributing to improved outcomes and reduced recidivism.

During this quarter, the HCA AB 109 team received 260 referrals from Probation and completed 134 assessments. Of the individuals assessed, 105 were referred to behavioral health services, and 132 admissions to services were recorded. Admissions exceeded referrals due to self-referrals and individuals who became eligible for AB 109 services only after entering treatment. Most behavioral health referrals were for outpatient substance use disorder (SUD) treatment and recovery residences or short-term housing. A smaller number of individuals were referred to or admitted into services such as Full-Service Partnerships (FSP), residential SUD treatment, narcotic treatment programs (including medication-assisted treatment), outpatient mental health services, and clinical withdrawal management. Per DHCS Data De-identification Guidelines, smaller categories are not individually displayed to protect client confidentiality.

On some occasions, admissions exceed the number of referrals received from probation. This variance is primarily due to self-referrals and post-admission identification of AB 109 clients. In some cases, individuals independently seek behavioral health services and are later confirmed as AB 109 participants after admission. Additionally, certain clients may enter treatment through other community pathways and are subsequently linked to the AB 109 program. This dynamic reflects the program's accessibility and the proactive engagement of justice-involved individuals in seeking care, both of which support the overall goal of reducing recidivism and improving behavioral health outcomes.

The HCA BHS AB 109 team continues to collaborate with probation officers to support justice-involved individuals on formal probation in Orange County who need mental health and/or SUD treatment services. This quarter reflects ongoing efforts to increase access and engagement in care and improve system navigation for individuals returning to the community.

Correctional Health Services

Vivitrol Administration, Emergency Room, and Hospitalizations

During the second quarter of 2026, Correctional Health Services staff did not administer any Vivitrol doses, consistent with the previous quarter. Additionally, seven (7) AB 109 inmates required hospitalization or emergency department treatment, reflecting a significant decrease from the twelve (12) cases reported in the prior quarter.

Most primary care physician services are delivered on-site within the jail facility. However, when inmates require specialized medical care, they are transported to off-site specialty clinics, which include services such as Cardiology, Nephrology, Oncology, Obstetrics, Surgery, and others. Currently, more than 30 specialty clinic services are available on and off-site. During the second quarter of 2026, AB 109 inmates accounted for 43 completed specialty clinic visits, representing approximately 5.76% of all specialty clinic services provided during that period.

Correctional Health Services conducts comprehensive triage and screening for all AB 109 inmates upon intake to assess their medical and mental health needs. Based on these evaluations, individualized treatment and medication plans are developed. The overall patient volume is reflected in the Orange County Sheriff's Department section of this report, as all inmates included are concurrently managed by in-custody healthcare staff.

Postrelease Community Supervision

Since the inception of AB109 through June 30, 2026, OC Probation has supervised 13,423 former state prisoners.

As of June 30, 2026, 869 individuals were on PCS active supervision.

PCS individuals without custodial sanctions are mandatorily discharged after one year. During the second quarter of 2026, 29 individuals were released on one-year mandatory terminations.

Mandatory Supervision (MS) individuals are offenders sentenced under PC § 1170(h) who receive jail time followed by supervision. During the second quarter of 2026, 25 individuals were sentenced to MS. In addition, 5 individuals were sentenced but are still in Orange County Jails – once released, OC Probation will supervise them.

As of June 2026, 183 individuals are actively supervised while 271 individuals are on active warrant.

*PCS warrants and MS warrants could include the same probationer if that individual has both an MS case and a PCS cases.

RE-ENTRY PLANNER AND GUIDE

From Custody To Community

Returning to your community from incarceration can be exciting, but also overwhelming. There are many challenges you will face during this transition time including finding safe and stable housing, securing employment, addressing health problems and making sure you have community support you need.

Many of you who are re-entering also struggle with substance abuse, mental and physical health issues, unstable housing situations, legal problems that can even make it more difficult for you.

We are hoping this guide will assist you to plan for your release and help you navigate the systems so you can be provided the programs and sources you need during the transition from custody to self-sufficiency.

Let's get started!

Planning for Re-Entry. It's A Personal Thing.

SELF EVALUATION

The first thing to do when putting together a re-entry plan is to make a list of the services you will need. A successful transition depends on making sure your basic needs are met. Since no one knows your needs better than you do, it's important to be very clear here so you can assess what you'll need and what is available to you.

Here are some questions to help you get ready for your transition from incarceration to the community.

CRITICAL

1. Who is picking you up, and where will you go?
2. When will you check in with probation or parole for the first time? How will you get there?
3. Where will you be staying? How long will you be able to stay there?
4. What services are most important for you to access?
5. Do you know how to get these services?
6. Are there some medical or personal needs you will need to take care of?

OTHER QUESTIONS

7. How will you support yourself? What skills will you need?
8. What steps do you need to take to get a job or financial help?

What can you do before you are released?

The best path for success is to map out a plan to get there, and a lot of that preparation and planning can be done in advance by you while still incarcerated.

180-45 Days Before Release

- ☐ Participate in any Re-Entry Classes
- ☐ Are there family or friends who can help you?
- ☐ Learn about types of Emergency and Transitional Housing by using an inmate message slip
- ☐ If you haven't finished high school, ask to enroll in a HiSet Class
- ☐ Request to sign up for MediCal 2 months before release if available
- ☐ Think about school or career options
- ☐ Determine if there are any outstanding warrants that need attention
- ☐ Sign up to learn to read better
- ☐ Request voting information and register to vote if you are eligible
- ☐ Your Ideas:

What will YOUR top 3 needs be?

(These answers may change over the next few months)

- 1) _____
- 2) _____
- 3) _____

First-72-Hours-After-Release Checklist!

The first 72 hours post-release from jail is a critical time in which connections to your most crucial needs must be met in order to ensure their long term success, safety and stability.

Report to the Parole or Probation office within 24 hours, as ordered by the Court, or as you were previously instructed. If you have questions regarding whether or not you are under supervision or you don't know where to report or when, it is your responsibility to contact either Probation or Parole and confirm your supervision status.

- Figure out transportation so you can show up for appointments.
- Address your food needs at a food pantry or soup kitchen that serves your area.
- Resolve any immediate medical or mental health needs, such as prescription refills.
- Secure your basic items: toiletries, an inexpensive watch, a calendar, a library card
- Get a prepaid cell phone – no cost.
- You will need to show a Cal-ID before you can apply or qualify for benefits at a Social Service Agency Center, so, if needed, get a Cal-ID at the DMV as soon as possible.
- Go to a Social Services Agency (SSA) Center to apply for housing, food and other immediate General Assistance (GA) and General Relief (GR). 2020 W. Walnut St., Santa Ana CA. (714) 834-8899 or (800) 281-9799. <http://ssa.ocgov.com/about/services/locations/>
- At SSA sign up for benefits such as CalWORKS (TANF), CalFresh (Food Stamps), and MediCal.
- Find re-entry resources. Call 2-1-1.
- Seek employment opportunities at a job assistance center or other employment program.

Tips for Transitioning Well and Maintaining Your Mental and Emotional Health.

Re-entry will be both exciting and frustrating. This list of tips for mental/emotional wellness may help with the transition process. Be nice to yourself!

- 1) Mentally prepare for the adjustment process.** Be prepared for anything! Especially the most challenging things like rejection, depression, anger and disappointment. Also, be prepared for things to be NOT as you expect them to be.
- 2) Give yourself permission to ease into the transition.** Allow yourself time to get used to the new environment. You'll need time to relax and reflect upon what is going on around you, how you are reacting to it, and what you might like to change.
- 3) Understand that the familiar will seem different.** You have changed; home has changed. You will see familiar people, places, and behaviors from new perspectives.
- 4) Expect to do some 'cultural catching up'.** Clothes, trends, language, and more have changed, too!
- 5) Reserve judgments.** Reserve all judgments of others, but especially negative judgments, just as you would like to have others reserve judgments of you. Resist the impulse to make snap decisions.
- 6) Expect mood swings.** It is entirely possible for you to feel ecstatic one moment and completely defeated a short time later. It's okay; it is a part of the process.
- 7) Allow sufficient time for reflection and self-analysis.** Your most valuable analysis of an event is likely to take place after allowing time for reflection.
- 8) Respond to inquiries thoughtfully and carefully.** Prepare to greet surprise questions with a calm, thoughtful, approach. If you find yourself being overly defensive or aggressive, take a deep breath and relax.
- 9) Seek support networks.** Don't isolate yourself! There are people who want to help you through your transition. You will find them if you look.
- 10) Volunteer.** A great way to connect to community, build references and network with people and possibilities.

Guía y Planificador de Reingreso

De Custodia a la Comunidad

Regresando a la comunidad después del encarcelamiento puede ser emocionante pero también abrumador. Hay muchos retos que usted enfrentará durante este tiempo de transición incluyendo, encontrar un hogar seguro y estable, asegurar un trabajo, atender a sus problemas de salud, y asegurarse que usted tiene el apoyo que necesita en la comunidad.

Muchos de ustedes que se están reincorporando [a la comunidad] también luchan contra el abuso de drogas y alcohol, problemas de salud mental y físico, situaciones de inestabilidad de vivienda, y problemas legales que pueden hacer el regreso a la comunidad más difícil para usted.

Nosotros esperamos que esta guía le ayude a planear su liberación y también a navegar los sistemas de apoyo para que usted reciba la información de los programas que necesite durante su transición de detención a autosuficiencia.

¡Comencemos!

Planificación de Reingreso. Es algo personal.

Evaluación Personal

Lo primero que se necesitará hacer es un plan de reingreso y hacer una lista de los servicios que va necesitar. Una transición exitosa depende en asegurarse que sus necesidades básicas estén cubiertas. Nadie sabe sus necesidades mejor que usted, así que es importante que sea específico para que pueda evaluar lo que necesite y que estén disponibles para usted.

Aquí hay unas preguntas para ayudarle a prepararse para su transición de encarcelamiento a la comunidad.

CRITICO

1. ¿Quién lo va recoger, y a dónde va a ir?
2. ¿Cuándo se registra con libertad condicional por primera vez? ¿Cómo piensa llegar?
3. ¿Dónde se va a quedar? ¿Cuánto tiempo puede quedarse allí?
4. ¿Cuáles servicios son los más importantes que usted puede acceder?
5. ¿Usted sabe cómo recibir estos servicios?
6. ¿Tiene algunas necesidades médicas o personales de que se necesité atender?

OTRAS PREGUNTAS

7. ¿Cómo se va apoyar usted mismo/a económicamente?
¿Cuáles son las habilidades que necesita?
8. ¿Cuáles son los pasos que usted necesita tomar para tener un trabajo o ayuda financiera?

¿Qué puede hacer antes que lo liberen?

El mejor camino para el éxito es planear como llegar allí y mucha de la preparación y planificación puede ser completados por usted mismo/a mientras está encarcelado/a.

180-45 días antes de liberación

- ☐ Participe en clases de reingreso
- ☐ ¿Tiene familiares o amistades que le pueden ayudar?
- ☐ Aprenda sobre las viviendas de emergencia y transitorias usando una hoja de mensaje 'inmate message slip'
- ☐ Si no ha terminado la escuela secundaria, pida inscribirse en la 'HiSet Class'
- ☐ Pida inscribirse para MediCal dos meses antes de su salida si es posible
- ☐ Piense en opciones de escuela o carreras
- ☐ Determine si tiene orden de arresto pendiente que necesite atención
- ☐ Inscribese para aprender como leer mejor
- ☐ Pida información para votar y regístrese si puede
- ☐ Sus Ideas:

¿Cuáles son sus 3 necesidades de prioridad?

(Estas respuestas pueden cambiar sobre los siguientes 3 meses.)

1) _____

2) _____

3) _____

Las primeras 72 horas después de liberación de la cárcel es el momento más crítico para cumplir las conecciones a sus necesidades para asegurar el éxito a largo plazo, la seguridad, y la estabilidad.

- Busque oportunidades de empleo en centros de asistencia de laboral u otros programas de empleo.

Consejos para tener una buena transición y mantener su salud mental y emocional.

Reingresar puede ser emocionante y frustrante. Esta lista de consejos para su bienestar mental/emocional le puede ayudar con el proceso de transición. Sea amable con usted mismo.

- 1) Prepárese mentalmente para el proceso de ajuste.** ¡Prepárese para cualquier cosa! Especialmente las cosas más difíciles como el rechazo, la depresión, la ira, y la decepción.
- 2) Dese permiso para entrar a la transición.** Dese tiempo para acostumbrarse a su nuevo ambiente. Necesitará tiempo para relajarse y reflexionar sobre lo que está sucediendo a su alrededor, como está reaccionando, y que le gustaría cambiar.
- 3) Entienda que lo conocido puede ser diferente.** Usted ha cambiado; su hogar ha cambiado. Va a ver gente conocida, lugares, y comportamientos con un nuevo punto de vista.
- 4) Espera hacer algo de recuperación cultural.** ¡Ropa, moda, idioma, y más han cambiado también!
- 5) No juzgue.** Reserve toda crítica de otros, pero especialmente la negativa, así como le gustaría a usted que todos reserven la crítica hacia usted. Resista el impulso de tomar decisiones rápidas.
- 6) Espere cambios de humor.** Es completamente posible que se sienta extático un momento y completamente derrotado un momento después.
- 7) Permita suficiente tiempo para reflexión y autoanalizar.** Su análisis más valioso de un evento ocurre después de tomarse el tiempo para reflexionar.
- 8) Responda a preguntas cuidadosamente y con consideración.** Prepárese para recibir preguntas de sorpresa, conteste con calma y cuidadosamente. Si se encuentra a la defensiva o agresivo, respire profundamente y relájese.
- 9) Busque redes de apoyo.** ¡No se aíle! Hay personas que quieren ayudarle en su transición y los va a encontrar si los busca.
- 10) Voluntario.** Un buen modo de conectarse a la comunidad es construir referencias y establecer contactos con personas y crear posibilidades.

Biblioteca Pública

Las bibliotecas son un recurso importante que varias veces son pasados por alto, aunque están disponibles en casi cada comunidad. Las bibliotecas modernas generalmente ofrecen acceso gratuito al público a computadoras e internet. El acceso de internet le ayuda a obtener información más fácil sobre programas locales y recursos. El personal ofrece experiencia para ayudar a conectar personas con información. Imprimir y obtener copias puede ser disponible a un costo menor. Bibliotecas también ofrecen eventos educativos y publican folletos sobre acontecimientos en la comunidad.
