FY 16/17 Estimates:

- (a) Initial budget for FY 16/17 approved by CCP Committee on January 21, 2016.
 (a) Budget amounts revised based on updated information received from CA Department of Finance.

FY 17/18 Proposed:

- (a) Statewide allocation obtained from the detail from the State's proposed budget for Account #5196, 2011 State-Local Realignment, subaccounts 3223 (FY 17/18 base) and 3233 (FY 16/17 growth).
 (b) County's portion of the Statewide allocation was kept at the same as the actuals for FY 16/17 as notified by the CA Dept of Finance in September 2016.
 (c) On January 9th, the fiscal managers from each County department met to discuss 2AF and the 17/18 Proposed Budget. It was agreed to allocate growth at the same percentage as the base. It was also decided to only fund the CCP Coordinator position and not set funds aside for projects. Probation's allocation was adjusted for the position but retains the growth funds. Sheriff's allocation for growth funds was adjusted for the remaining 1%.
 (d) Amounts allocated to Local Law Enforcement based on the average number of reported offenders for calendar year 2016 based on the PCS Stats reported by OC Probation for the period of January 2016 to December 2016. Allocation is calculated for those offenders pertaining to Orange County only.
 (e) Budget amounts are estimated based on information obtained from the State Budget. Approval of the budget approves the allocation percentages shown and will be used to distribute funds in accordance with County policy.

Public Safety Realignment in Orange County

4th Quarter 2016 Report

October – December

Prepared by:

Orange County Community Corrections Partnership

Vision Statement: *“Enhancing the quality of life of Orange County residents by promoting public safety, reducing recidivism and creating safer communities.”*

The **Mission** of the Orange County Community Corrections Partnership is to enhance public safety by holding offenders accountable and reducing recidivism by utilizing fiscally responsible, quantifiable, evidenced based and promising practices that support victims and community restoration.

Orange County Public Defender’s Office
Sharon Petrosino, Public Defender

In the fourth quarter, the overall numbers of Postrelease Community Supervision and Mandatory Supervision decreased slightly from the third quarter of 2016, while the number of parole cases increased slightly. The number of contested hearings decreased by twenty percent.

The Public Defender’s office continues to staff the Realignment client population with three regularly assigned attorneys, two resource service paralegals, an attorney clerk and a staff specialist. In addition, non-dedicated staff assist with investigations and clerical needs. A writs lawyer also dedicates a significant amount of time assisting lawyers in litigating important issues on behalf of Realignment clients.

Below are examples of the work completed by the Realignment team from October through December 2016:

PCS Cases Opened	MS Cases Opened	Parole Cases Opened	Total Court Appearances (includes PCS, MS and Parole)	Contested Hearings
310	183	154	654	24

In addition to handling the above matters, the Realignment team of attorneys have been active in filing Proposition 47 petitions to reduce felony convictions to misdemeanors. This quarter, **837** petitions were filed, with significant benefit to the clients.

The Public Defender’s office continues to assist in the reduction of recidivism. To this end, two dedicated resource paralegals work closely with clients helping them acclimate in society after release from prison. The Public Defender resource paralegals continue to collaborate with OC Probation, the Division of Adult Parole Operations (DAPO) of the California Department of Corrections and Rehabilitation (CDCR), Sheriff’s Department (OCSD), and Health Care Agency (HCA). On a weekly basis, they visit the day reporting centers run by OC Probation and DAPO. In addition, they work with the OCSD on the re-entry program to further assist clients in connecting with services.

Again this quarter, the resource paralegals partnered with “Project Kinship,” a non-profit organization helping to ensure Medi-Cal, General Relief, and food stamp benefits for the clients. Project Kinship representatives generally accompany paralegals on visits, and guide clients in submitting Medi-Cal applications, and other forms of assistance. This has helped with the sometimes arduous application process.

Below is a glimpse of the amount of work and types of services provided to parole and PCS clients by the resource staff for the fourth quarter of 2016:

PCS Proceedings

Post Release Community Supervision proceedings were down 14% in the 4th quarter of 2016 as compared to the same time frame of last year.

Current 2016 statistics for PCS proceedings indicate that the OCDA appeared in 12% fewer proceedings as 2015 statistics.

MSV Proceedings

Mandatory Supervision Violation filings have remained consistent when comparing the 4th quarter of 2015 (530) and the 4th quarter of 2016 (518).

Current 2016 statistics for MSV proceedings indicate that the OCDA appeared in only 8% fewer proceedings than in 2015.

It seems we have reached a plateau in relation to filings, proceedings, and dispositions.

Data Sources

The Office of the District Attorney (OCDA) tracks filings for Mandatory Supervision Violations in the DA Complaint Management System (CMS). This includes cases that go to warrant. However, resources are not available to track all filings for Post Release Community or Parole Violations; therefore, these numbers can only be estimated. The OCDA does track all proceedings/hearings scheduled for these AB 109 Violations.

The Central Justice Center handles all the Post Release Community Supervision (PCS) Violations. The PCS proceedings are heard in C58 on Wednesdays. They are also heard in CJ1, when defendant is in custody. There exists a backlog of PCS Violations dating back to 2013. The OCDA continues to develop tracking procedures for PCS Violations. Cases are most often not entered into the OCDA's CMS until a hearing is set. Cases are updated as new hearings are scheduled and dispositions and sentences are being entered into CMS.

Mandatory Supervision Violations (MSV) are heard in all courts. MSV hearings are part of the data exchange with VISION and are included in the automated data exchange between the OCDA and the Courts. Cases are updated as new hearings are scheduled and dispositions and sentences are being entered into CMS.

Parole Violations are heard at the Central Justice Center. They are heard in CJ1 on Thursdays. Cases are only entered into the OCDA's CMS once a hearing is set. Cases are updated as new hearings are scheduled and dispositions and sentences are being entered into CMS.

Behavioral Health Services:

HCA continues to partner with Probation by providing behavioral health assessments, referrals and services. Of the referrals received from probation this quarter, 85% were assessed by HCA's AB 109 screening team. Probation referrals this calendar year increased by 33% compared to the previous year (2,691 2015 to 3,583 in 2016). The number assessed by HCA showed a similar trend with 32% increase.

Demand for outpatient substance use treatment increased by 19% compared to last year (420 last year compared to 499 this year). Admissions to residential treatment increased by 22% compared to last year (375 compared to 458). Currently there is approximately a four week wait time for AB 109 clients to enter residential treatment. Clients waiting for treatment are given the option to enter sober living. This has resulted in an increased demand for sober living. Social model detox saw an increase of 58% compared to the previous year.

There were a number of services that saw reductions in admissions compared to the previous year. These were outpatient mental health (-36%), full service partnership (-47%), methadone detox (-82%) and methadone maintenance (-33%) and mental health shelter beds (-67%). Wisteria House, the only AB 109 mental health shelter provider, closed in May 2016. Two new providers, Grandma's House of Hope and Agape were contracted to provide shelter services later earlier this year. Demand for psychiatric consults and medical detox remained stable.

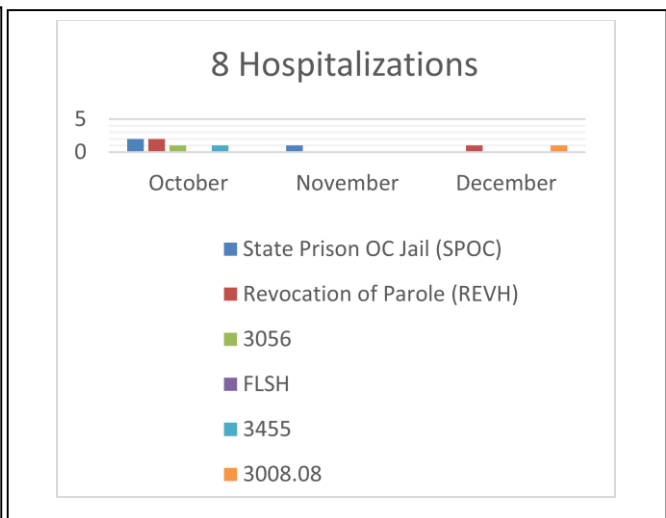

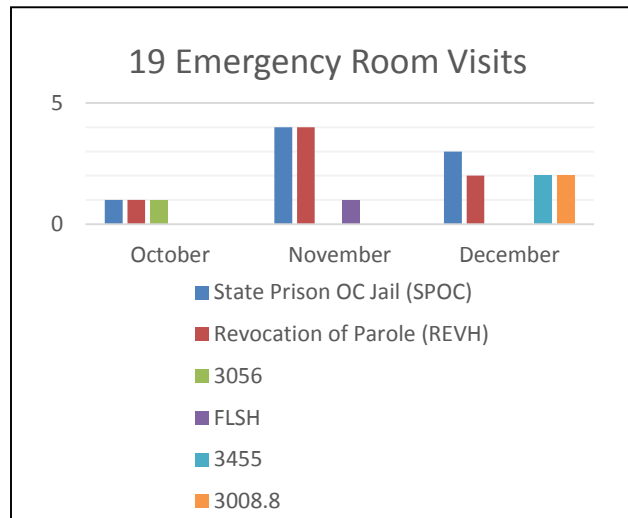

There has been an increase in Vivitrol participants, primarily in-custody. It is difficult to say what has triggered the increase, but there has been an increase in inmates attending the AB 109 orientation classes. Additionally, the AB 109 Vivitrol case manager has been able to spend more time with these inmates. Vivitrol participants are showing great results from abstaining from alcohol and opiates.

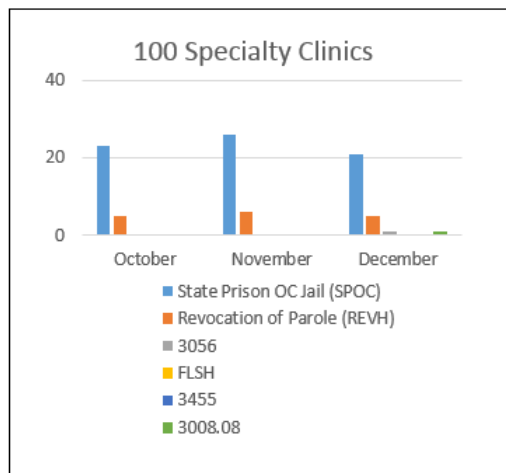

Correctional Health Services:

In-custody Correctional Health Services triages and screens every AB 109 inmate in the jail to determine their medical, mental health, and dental needs including subsequent treatment and medication plans. The volume of inmates is reflected in the Sheriff's section of this report, as all in-custody inmates on the Sheriff's census are also managed by in-custody healthcare staff.

Partnering with BHS, Correctional Health staff administered Vivitrol to sixteen (16) inmates prior to their release. Coordinated follow-up is arranged for these individuals to receive additional injections post-release via BHS out-patient services. Twenty-seven (27) AB 109 inmates were either hospitalized or treated in the Emergency Department. This is a decrease from the previous quarter reflecting thirty-three (33) inmates.

All primary care physician services are provided within the jail; however, when an AB 109 inmate needs specialty services, they are transported to specialty medical clinics off-site (such as, Cardiology, Nephrology, Oncology, OB, Surgery, etc.). There are currently nearly 26 specialty clinic services available with 100 clinic visits completed during the 4th quarter of 2016 for AB 109 inmates specifically. This equates to approximately 22% of specialty clinic services business—with only 11% of the total jail population being AB 109 status.

Since the inception of AB109 through December 31, 2016, 6,431 former state prisoners have been supervised by OC Probation.

Postrelease Community Supervision

PCS Individuals Actively Supervised

Excluding warrants and field monitored cases, the average cases per Deputy Probation Officer for December was 52. Compared to the third quarter of 2016, there was a 4% increase in the number of actively supervised individuals in the fourth quarter of 2016.

1 Year Mandatory Termination Discharges Pursuant to 3456(a)(3)

PCS individuals without custodial sanctions are mandatorily discharged after one year. During the fourth quarter of 2016, a total of 91 individuals were released on one year mandatory terminations.

Local Law Enforcement Collaboration

The OC Probation Department continues to partner with the Orange County Sheriff’s Department by providing a dedicated OCPD Deputy Probation Officer for their Special Enforcement Bureau Tactical Apprehension Team (TAT). This team actively pursues fugitives utilizing surveillance and other investigative tools.

During the third quarter, TAT made a total of 51 arrests of individuals released on supervision. The team also completed 101 field searches during their investigations.

Mandatory Supervision

Individuals with MS Convictions from October 1, 2011 through December 31, 2016 = 3,181

Mandatory Supervision (MS) individuals are offenders sentenced under PC § 1170(h) who receive jail time followed by supervision. During the fourth quarter of 2016, 107 individuals were sentenced to MS. Type of Discharges

During this quarter, 95 individuals exited from the DRC. Of the 9 satisfactory discharges, 3 completed all three phases, 3 obtained full-time employment, and 3 reached their mandatory discharge date. Seventy-four exited unsatisfactorily due to non-compliant behavior – i.e. non-attendance, absconded supervision, tested dirty, received custodial sanctions, committed law and other violations. Finally, 12 individuals exited no-fault, the majority of whom were referred to other treatment (residential drug treatment; medical/mental health treatment) services more suited to their needs.
