- Total number of PC 1170 (h) offenders (non-violent, non-serious, non-sex offenders) sentenced to the Orange County Jails as a new commitment. Includes both straight and split sentences.

- Total number of Post-Release Community Supervision offenders booked on a 1) PC 3454(c) flash incarceration; 2) PC3455(a) – revoked for technical violation; and 3) for new charges.

- Total number of state parole violators booked on a 1) PC3056(a) parole violation only; 2) received jail time as a result of a parole revocation hearing; and 3) any new offense(s) including 1170(h) charges.

In the second quarter, the overall numbers of Postrelease Community Supervision, Mandatory Supervision remained consistent with the numbers from the first quarter of 2017, as did the number of parole cases. The number of contested hearings, however, increased.

The Public Defender's office continues to staff the Realignment client population with three regularly assigned attorneys, two resource service paralegals, an attorney clerk and a staff specialist. In addition, non-dedicated staff assist with investigations and clerical needs. A writs lawyer also dedicates a significant amount of time assisting lawyers in litigating important issues on behalf of Realignment clients.

Below are examples of the work completed by the Realignment team from April through June 2017:

PCS Cases Opened	MS Cases Opened	Parole Cases Opened	Total Court Appearances (includes PCS, MS and Parole)	Contested Hearings
407	185	159	1,410	18

In addition to handling the above matters, the Realignment team of attorneys have been active in filing Proposition 47 petitions to reduce felony convictions to misdemeanors. This quarter, **857** petitions were filed, with significant benefit to the clients.

The Public Defender's office continues to assist in the reduction of recidivism. To this end, two dedicated resource paralegals work closely with clients helping them acclimate in society after release from prison. The Public Defender resource paralegals continue to collaborate with OC Probation, the Division of Adult Parole Operations (DAPO) of the California Department of Corrections and Rehabilitation (CDCR), Sheriff's Department (OCSD), and Health Care Agency (HCA). On a weekly basis, they visit the day reporting centers run by OC Probation and DAPO. In addition, they work with the OCSD on the re-entry program to further assist clients in connecting with services.

Again this quarter, the resource paralegals partnered with "Project Kinship," a non-profit organization helping to ensure Medi-Cal, General Relief, and food stamp benefits for the clients. Project Kinship representatives generally accompany paralegals on visits, and guide clients in submitting Medi-Cal applications, and other forms of assistance. This has helped with the sometimes arduous application process.

Below is a glimpse of the amount of work and types of services provided to parole and PCS clients by the resource staff for the second quarter of 2017:

Data Sources

The Office of the District Attorney (OCDA) tracks filings for Mandatory Supervision Violations in the DA Complaint Management System (CMS). This includes cases that go to warrant. However, resources are not available to track all filings for Post Release Community or Parole Violations; therefore, these numbers can only be estimated. The OCDA does track all proceedings/hearings scheduled for these AB 109 Violations.

The Central Justice Center handles all the Post Release Community Supervision (PCS) Violations. The PCS proceedings are heard in C58 on Wednesdays. They are also heard in CJ1, when defendant is in custody. There exists a backlog of PCS Violations dating back to 2013. The OCDA continues to develop tracking procedures for PCS Violations. Cases are most often not entered into the OCDA's CMS until a hearing is set. Cases are updated as new hearings are scheduled and dispositions and sentences are being entered into CMS.

Mandatory Supervision Violations (MSV) are heard in all courts. MSV hearings are part of the data exchange with VISION and are included in the automated data exchange between the OCDA and the Courts. Cases are updated as new hearings are scheduled and dispositions and sentences are being entered into CMS.

Parole Violations are heard at the Central Justice Center. They are heard in CJ1 on Thursdays. Cases are only entered into the OCDA's CMS once a hearing is set. Cases are updated as new hearings are scheduled and dispositions and sentences are being entered into CMS. We are aware of a lag in 2016 of entering parole violations. We are working on correcting the issue.

Behavioral Health Services:

HCA continues to partner with Probation by providing behavioral health assessments, referrals and services. Of the referrals received from probation this quarter, 91% were assessed by HCA’s AB 109 screening team. A total of 770 assessments were conducted this quarter of which 523 referrals were made for services. 358 or 68% of referrals made resulted in admissions. When a participant does not enroll in services probation is notified and the AB 109 behavioral health team works with the probation officer and the client to engage into appropriate services.

Outpatient substance use treatment continues to be the most frequent treatment referral with 42% of referrals made for this service. 11% of the referrals were mental health referrals, 16% were residential substance use treatment, 14% were sober living, 10% were detox, and 7% Medication Assisted Treatment.

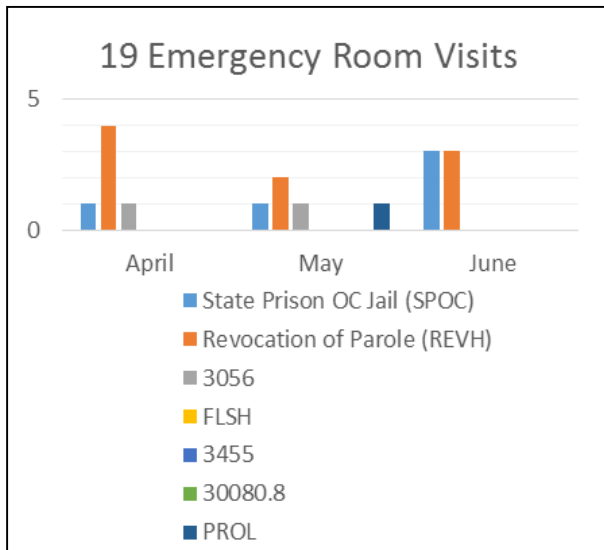

Residential Treatment Services continues to be the only service that is difficult to access. There is approximately a five week wait time for AB 109 clients to enter residential treatment. Clients waiting for residential treatment are offered outpatient services, and a program is structured to meet the client’s treatment needs. If housing is an issue, clients are referred to sober living and are required to actively participate in outpatient services. To ensure a successful transition, clients are also offered Medication Assisted Treatment (MAT). 42% of the sober living referrals made were for short term stays pending residential treatment admission. This method has proven effective as 92% of the referrals made for residential treatment services did result in an admission.

Correctional Health Services:

Partnering with BHS, Correctional Health staff administered Vivitrol to twenty-one (21) inmates prior to their release. Coordinated follow-up is arranged for these individuals to receive additional injections post-release via BHS out-patient services.

Twenty-six (26) AB 109 inmates were either hospitalized or treated in the Emergency Department. This is an increase from the previous quarter reflecting twenty-five (25) inmates.

All primary care physician services are provided within the jail; however, when an AB 109 inmate needs specialty services, they are transported to specialty medical clinics off-site (such as, Cardiology, Nephrology, Oncology, OB, Surgery, etc.). There are currently nearly 26 specialty clinic services available with 111 clinic visits completed during the 2nd quarter of 2017 for AB 109 inmates specifically. This equates to approximately 17% of specialty clinic services business—with only 11% of the total jail population being AB 109 status.

In-custody Correctional Health Services triages and screens every AB 109 inmate in the jail to determine their medical and mental health needs and subsequent treatment and medication plan. The volume of patients is reflected in the Sheriff's section of this report, as all in-custody inmates on the Sheriff's census are also managed by in-custody healthcare staff.
