# Public Safety Realignment in Orange County

---

## *2<sup>nd</sup> Quarter 2016 Report*

*April – June*

Prepared by:

### **Orange County Community Corrections Partnership**

**Vision Statement:** *"Enhancing the quality of life of Orange County residents by promoting public safety, reducing recidivism and creating safer communities."*

The **Mission** of the Orange County Community Corrections Partnership is to enhance public safety by holding offenders accountable and reducing recidivism by utilizing fiscally responsible, quantifiable, evidenced based and promising practices that support victims and community restoration.

**Orange County Public Defender's Office**  
Sharon Petrosino, Public Defender

In the second quarter, the overall numbers of PCS, Mandatory Supervision and parole cases remained about the same as the first quarter of 2016; there was a slight decrease in the number of contested hearings.

The Public Defender's office continues to staff the Realignment client population with three regularly assigned attorneys, two resource service paralegals, an attorney clerk and a staff specialist. In addition, non-dedicated staff assist with investigations and clerical needs. A writs lawyer also dedicates a significant amount of time assisting lawyers in litigating important issues on behalf of Realignment clients.

Below are examples of the work completed by the Realignment team from April through June 2016.

<b>PCS Cases Opened</b>	<b>MS Cases Opened</b>	<b>Parole Cases Opened</b>	<b>Total Court Appearances (includes PCS, MS and Parole)</b>	<b>Contested Hearings</b>
292	194	172	1,149	31

In addition to handling the above matters, the Realignment team of attorneys have been active in filing Proposition 47 petitions to reduce felony convictions to misdemeanors. This quarter 63 petitions were filed, with significant benefit to the clients.

The Public Defender's office continues to assist in the reduction of recidivism. To this end, two dedicated resource paralegals work closely with clients helping them acclimate in society after release from prison.

The Public Defender resource paralegals continue to collaborate with OC Probation, the Division of Adult Parole Operations (DAPO) of the California Department of Corrections and Rehabilitation (CDCR), Sheriff's Department (OCSD), and Health Care Agency (HCA). On a weekly basis, they visit the day reporting centers run by OC Probation and DAPO. In addition, they work with the OCSD on the re-entry program to further assist clients in connecting with services.

On May 24<sup>th</sup>, the Public Defender's Office, along with the Re-Entry Partnership, BI Incorporated, Hope Builders, co-hosted Orange County's 2nd Annual Reentry Resource Fair and Prop 47 Clinic, for formerly incarcerated individuals at the Honda Center in Anaheim with the goal of linking individuals with employers, school opportunities, legal advice, and other valuable resources that help with successful reentry back into our community. Also, again this quarter, the resource paralegals partnered with "Project Kinship," a non-profit organization helping to ensure Medi-Cal, General Relief, and food stamp benefits for the clients. Project Kinship representatives generally accompany paralegals on visits, and guide clients in submitting Medi-Cal applications, and other forms of assistance. This has helped with the sometimes arduous application process.

### Data Sources

The Office of the District Attorney (OCDA) tracks filings for Mandatory Supervision Violations in the DA Complaint Management System (CMS). This includes cases that go to warrant. However, resources are not available to track all filings for Post Release Community or Parole Violations; therefore, these numbers can only be estimated. The OCDA does track all proceedings/hearings scheduled for these AB 109 Violations.

The Central Justice Center handles all the Post Release Community Supervision (PCS) Violations. The PCS proceedings are heard in C58 on Wednesdays. They are also heard in CJ1, when defendant is in custody. There exists a backlog of PCS Violations dating back to 2013. The OCDA continues to develop tracking procedures for PCS Violations. Cases are most often not entered into the OCDA's CMS until a hearing is set. Cases are updated as new hearings are scheduled and dispositions and sentences are being entered into CMS.

Mandatory Supervision Violations (MSV) are heard in all courts...MSV hearings are part of the data exchange with VISION and are included in the automated data exchange between the OCDA and the Courts. Cases are updated as new hearings are scheduled and dispositions and sentences are being entered into CMS.

Parole Violations are heard at the Central Justice Center. They are heard in CJ1 on Thursdays. Cases are only entered into the OCDA's CMS once a hearing is set. Cases are updated as new hearings are scheduled and dispositions and sentences are being entered into CMS.

\*Estimated, not tracked from the beginning.

**Behavioral Health Services:**

HCA continues to partner with Probation by providing behavioral health assessments and referrals. Of the referrals received from probation this quarter, 88% were assessed by HCA's AB109 screening team. The referrals this quarter increased by 11% (890 total this quarter compared to 807 total last quarter), and the number assessed by HCA increased by 4% (783 total this quarter compared to 755 total last quarter).

Demand for both residential and outpatient substance use treatment remained strong. Although admission to residential treatment has decreased by 15% compared to last quarter, it has increased by 13% compared to the 4<sup>th</sup> quarter of 2015 (127 total this quarter, 149 total last quarter, and 112 total during the 4<sup>th</sup> quarter of 2015). Admission to residential treatment was particularly high in June (53 total). CHCADA filed bankruptcy in February 2016 and resulted in the closing of CHCADA/Unidos Recovery on May 13, 2016. Clients who had not completed residential treatment at that time were transferred to other residential treatment providers to continue their treatment.

Admission to outpatient treatment increased by 17% (128 total this quarter compared to 109 total last quarter), with peaks of 49 admissions in May, and 45 admissions in June. Change of Recovery closed on March 18, 2016 and clients were transferred to the other outpatient providers to continue treatment. Clients are encouraged to participate in outpatient services and/or the Day Reporting Center (DRC) when appropriate.

Demand for sober living remained high. Admission to sober living this quarter was comparable to last quarter (39 total this quarter). Straight Talk/Foundation House, a male-only sober living provider (formerly known as Esther House, a female-only facility) started to accept AB109 clients in May 2016. Additional AB109 funding in fiscal year 2016 -17 allows sober living services to expand and to include short term stay sober living and emergency housing services.

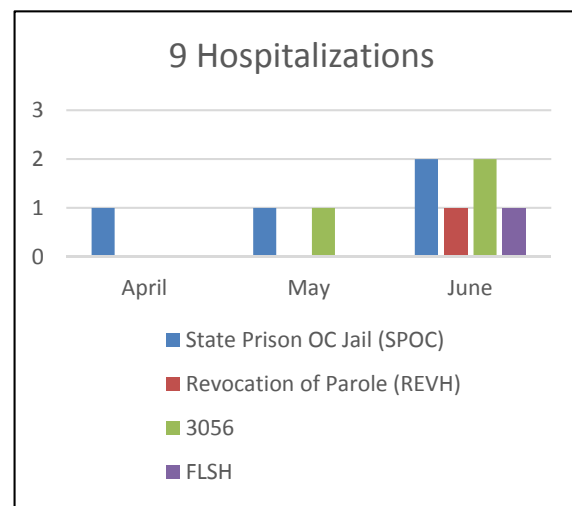

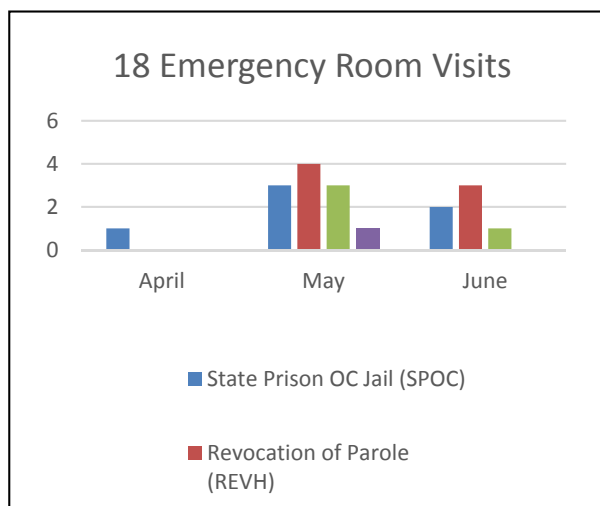

Admission to outpatient mental health continued to drop with only 14 admissions this quarter. Admission to social model detox decreased by 34% (35 total this quarter compared to 53 total last quarter). Demand for psychiatric consult and full service partnership has increased slightly, while the demand for medical detox, methadone detox and methadone maintenance remained low.

CHCADA/Wisteria House, which provided shelter placement for clients with severe and persistent mental illness (SPMI), closed on May 31, 2016. There were two (2) admissions in April, and no admissions in May or June. New shelter bed providers include Friendship Shelter (co-ed) and Grandma's House of Hope (female clients only).

Individuals with alcohol and/or opiate use are encouraged to participate in our Vivitrol program, giving individuals a better opportunity to maintain their sobriety in the community. A total of 12 clients received their initial Vivitrol injections this quarter. Vivitrol participants are showing great results from abstaining from alcohol and opiates.

### Correctional Health Services:

Partnering with BHS, Correctional Health staff administered Vivitrol to five (5) inmate prior to their release. Coordinated follow-up is arranged for these individuals to receive additional injections post-release via BHS out-patient services. Twenty-seven (27) AB 109 inmates were either hospitalized or treated in the Emergency Department. This is an increase from 26 in the previous quarter.

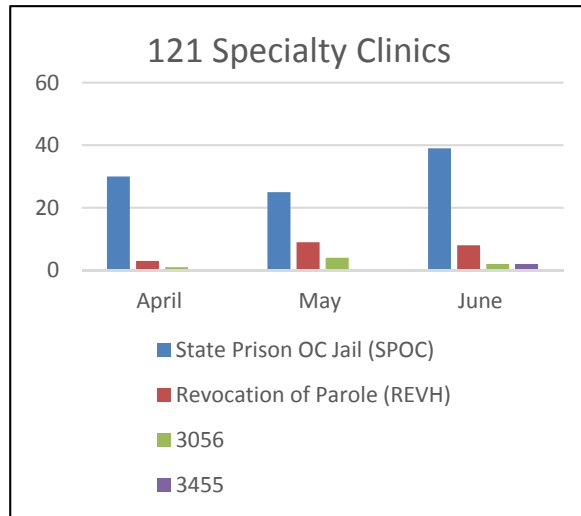

All primary care physician services are provided within the jail; however, when an AB 109 inmate needs specialty services, they are transported to specialty medical clinics off-site (such as, Cardiology, Nephrology, Oncology, OB, Surgery, etc.). There are currently nearly 26 specialty clinic services available with 121 clinic visits completed during the 2nd quarter of 2016 for AB 109 inmates specifically. This equates to approximately 21% of specialty clinic services business—with only 12% of the total jail population being AB 109 status.

## Orange County Health Care Agency

Mark Refowitz, Agency Director

In-custody Correctional Health Services triages and screens every AB 109 inmate in the jail to determine their medical and mental health needs and subsequent treatment and medication plan. (The volume of patients is reflected in the Sheriff's section of this report, as all in-custody inmates on the Sheriff's census are also managed by in-custody healthcare staff.

Since the inception of AB109 through June 30, 2016, 5,993 former state prisoners have been supervised by OC Probation.

### Postrelease Community Supervision

#### PCS Individuals Actively Supervised

Excluding warrants and field monitored cases, the average cases per Deputy Probation Officer for June was 50. Compared to the first quarter of 2016, there was a 5% increase in the number of actively supervised individuals in the second quarter of 2016.

#### 1 Year Mandatory Termination

Discharges Pursuant to 3456(a)(3)

PCS individuals without custodial sanctions are mandatorily discharged after one year. During the second quarter of 2016, a total of 90 individuals were released on one year mandatory terminations.

### Local Law Enforcement Collaboration

The OC Probation Department continues to partner with the Orange County Sheriff's Department by providing a dedicated OCPD Deputy Probation Officer for their Special Enforcement Bureau Tactical Apprehension Team (TAT). This team actively pursues fugitives utilizing surveillance and other investigative tools.

During the second quarter, TAT made a total of 54 arrests of individuals released on supervision. The supervision breakdown is as follows: 1 PCS and 39 formal probation cases. The team also completed 206 field searches during their investigations.

### Mandatory Supervision

*Individuals with MS Convictions from October 1, 2011 through June 30, 2016 = 3,029*

Mandatory Supervision (MS) individuals are offenders sentenced under PC § 1170(h) who receive jail time followed by supervision. During the second quarter of 2016, 108 individuals were sentenced to MS. As of June 2016, OC Probation supervises a total of 818 individuals, 486 are actively supervised while 332 individuals are on active warrant. In addition, 193 individuals were sentenced but are still in Orange County Jails – once released, they will be supervised by OC Probation.
